PHILADELPHIA RAPID TRANSIT.—Controlled by the Stotesbury interests.

Incorporated in Pennsylvania on May 1 1902 to take over under lease the Union Traction Co. for 999 years from July 1 1902, and to acquire and hold shares of other corporations. (For terms of lease, see Union Traction below.) The Rapid Transit Co. acquired numerous franchises for new roads obtained by the Mack-Foerderer syndicate in 1901. In June 1903 the Market St. Elev. Pass. Ry., with $5,600,000 authorized capital stock, was formed to absorb a number of these franchises. V. 76, p. 1301. In June 1903 the Rapid Transit Co. obtained from the Philadelphia City Councils other valuable franchises for new lines. In April 1906, however, an agreement was entered into with the city relinquishing nearly all the rights to the franchises of 1901 and 1903, and the whole matter of the company's franchise rights was readjusted on a new basis. See V. 82, p. 693, 870.

Subway has been built in Market St. from 23d St. to Delaware Ave.; elevated structure on Market St. west of the Schuylkill River, and on Delaware Ave. from Market St. to South St. V. 74, p. 528, 989; V. 76, p. 1301; V. 81, p. 265. In March 1907 began operating on that portion of the elevated from the Schuylkill River west to the Upper Darby terminal station, a distance of about 4 miles. V. 84, p. 571. On Aug. 3 1908 the entire subway from 2d St. to 23d and Market St. was placed in operation, thus completing line through to 69th St. V. 87, p. 347. On Oct. 6 1908 elevated line on Delaware Ave. to South St. Station was placed in operation, completing entire line. V. 87, p. 936.

In July 1902 acquired all the stock of the Doylestown & Willow Grove Ry. Co. Also owns entire stock of the Philadelphia & Willow Grove Street Ry. Co. and entire stock ($10,000) of the Real Estate Holding Co., which owns property of an assessed value of $463,850.

On July 1 1906 the Phila. Morton & Swarthmore Ry. and the Media Middletown Aston & Chester Elec. Ry. were consolidated, forming the Darby Media & Chester Ry. The new company, embracing 25 miles of track, was thereupon leased to the Phila. Rapid Transit Co. for 999 years, rental being $8,500 for first year, $17,000 for second and third years, $25,500 for fourth year, $34,000 for fifth year and $42,500 for sixth year and thereafter.

With Aug. 1 1906 the Rapid Transit Co began to sell passengers 6 tickets for 25 cents. V. 82, p. 1439. In Oct. 1908 company sought to make these tickets non transferable and to restrict their use to the purchaser (V. 87, p. 936), but in Nov. 1908 abandoned all restrictions again. V. 87, p. 1301. On May 18 1908 company put into force a rule allowing transfers only upon payment of full 5-cent cash fare. V. 86, p. 1160. On Jan. 27 1909 Common Pleas Court No. 2 sustained company in this rule in a test suit brought by city. V. 88, p. 296. This in turn was affirmed by the Pennsylvania Supreme Court on April 26 1909. V. 88, p. 1093, 1129. On May 24 1910 Pennsylvania Supreme Court affirmed the decision of Common Pleas Court No. 2 in July 1909 (V. 89, p. 225, 287), declining to compel the restoration of a 6-for-a-quarter strip tickets (which were discontinued in May 1909; V. 88, p. 1165, 1197), on the ground that the sale of strip tickets is not a change in rate of fare, but a change of a detail in management which the company is not bound by law or contract of July 1907 with city to make permanent. V. 89, p. 225, 287. For reasons against restoring strip tickets, see V. 89, p. 163.

Strike.—On May 29 1909 a strike on the surface lines began (V. 88, p. 1438), and lasted for a week. For terms of agreement see V. 88, p. 1500. A new strike to obtain an increase in wages to 25 cents an hour and exclusive recognition for the Amalgamated Car Men's Ass'n, which began Feb. 19 1910 (V. 90, p. 560), was declared off on April 25 1910. See company's terms, V. 90, p. 1102.

Wage Schedules.—On Aug. 28 1911 a plan was presented to the employees looking to a lasting peace between company and men, 22% of gross passenger earnings to be set apart for wages and wage scale to be increased as rapidly as possible within that limit. See plan in V. 93, p. 590.

Adjustment of Relations with City.—On Feb. 18 1907 the board of directors accepted the plan submitted Jan. 1907 by the Retail Merchants Association of Philadelphia for a readjustment of the relations between the city and company. The plan confers upon the city the right to purchase at any time after June 30 1957 all leases, franchises and property of the company at the company's actually paid-in capital, $30,000,000. The city is to have the right to assign or sell this option. Furthermore, a sinking fund is to be established, to be taken out of the gross receipts of the company, which, calculated at 4%, will amount to at least $30,000,000 at the expiration of 50 years, to enable the city to acquire the property at that time. Another feature in the arrangement is that, beginning with Jan. 1 1907, the city shares equally in the net profits after stockholders have received lawful interest on the capital invested by them. All franchises for further surface, elevated or underground railroads within the city are to be first offered the Phila. Rapid Transit Co. under terms of this contract. The city is also to have three members on the board of directors. The present rate of fare is not to be changed except with the consent of both parties. As part of the arrangement, the Rapid Transit Co. agreed to call the $12,000,000 then still due on its stock at the rate of $3,000,000 every six months, the money to be used to give increased and improved service. For further details of plan, see V. 84, p. 451, 1552. An ordinance embodying the above features was passed by the Phila. City Council on June 20 1907 (V. 84, p. 1488) and ratified by the company July 18 1907. On Feb. 27 1911 State Supreme Court affirmed the decision (V. 89, p. 847) of the Common Pleas Court sustaining the company's demurrer in a suit brought to test the validity of the foregoing ordinance. V. 92, p. 596. On July 29 1907 directors called for payment the final assessment of $15 a share on stock, payable in two installments—$7 50 Sept. 9 1907 and $7 50 Sept. 7 1908. V. 85, p. 284, 1402.

In June 1908 the City Councils approved the company's proposition to pledge its assets to secure a $5,000,000 loan. V. 86, p. 1530. Stockholders Sept. 16 1908 approved proposition. See V. 87, p. 740. In Oct. 1908 stockholders of Union Trac. Co. and the Phila. Trac. Co. approved the use of securities (see V. 87, p. 813, 1161), owned by them as security for the new loan, and the $5,000,000 coll. trust mtge. shown below was thereupon authorized. Provision has been made for exchange of new bonds for the coll. tr. bonds due 1917 of Phila. Traction Co., bond for bond. V. 88, p. 376.

On June 20 1910 stockholders voted to further increase indebtedness not exceeding $5,000,000 (V. 90, p. 1102; authorized by City Councils May 5 1910, V. 90, p. 977, 1240), and as part of the plan to discontinue the insurance fund valued at over $1,750,000, and to pledge or sell the securities in said fund, applying the proceeds to general purposes of the company; also to sell the rolling stock of the company to the Union Trac. Co. for $1,500,000, taking lease of same for 10 years at rental of $150,000 a year and int., with right to re-purchase equipment at the end of 10 years for $1. (1) The Street Railways comprise 639.113 miles of track all operated (as a matter of convenience and economy) by the Pittsburgh Railways Co. (except the Beaver Valley Traction Co. and the Pittsburgh & Beaver St. Ry. Co., which are operated separately), and embrace the following properties:

The United Traction Company of Pittsburgh.

Allegheny County Light Company.
Monongahela Light & Power Company
Southern Heat Light & Power Company
Consolidated Gas Company.
South Side Gas Company.

(3) *Fuel Gas.*—Philadelphia Company, through its own lines and those of a number of companies controlled by it, supplies nearly all the fuel gas consumed in the cities of Pittsburgh and Allegheny and the manufacturing towns lying along the Monongahela and Allegheny rivers. Company controls by lease 580,606 acres of gas and oil lands in West Virginia and Western Pennsylvania. It controls through its ownership of the Fairmont & Grafton Gas Co. 16,611 acres, and through its majority ownership of the Equitable Gas Co. 779 acres of leasehold. The principal fuel gas companies controlled are:

The Philadelphia Company of West Virginia.

NEW YORK STATE RAILWAYS.—*See Map on page* 109.—Of the common stock, $13,604,900 is owned by the N. Y. Cent. & Hud. River RR.

ORGANIZATION.—Incorporated in New York on March 22 1909 as a consolidation of the Rochester Ry. Co., the Rochester & Sodus Bay Ry. Co. and the Roch. & Eastern Rapid Ry. Co., as per plan V. 88, p. 53, 823, 945.

The Rochester Railway was a consolidation of the Rochester City & Brighton RR., the Cross-Town RR. and the South Park RR., and leased the Rochester Electric Ry. from July 1 1894 for 50 years, at a rental of 8% on $200,000 stock, and whenever gross receipts exceed $55,000, one-quarter of such excess; also leased the Rochester & Suburban Ry. (Summerville Division.)

On Mch. 10 1910 Pub. Ser. Comm. authorized an increase in stock from $23,140,200 to $23,860,200 to be used to take over the Rochester & Suburban Ry. (stock $420,000), the Rochester Electric Ry. (stock $200,000) and the Ontario Light & Traction Co. (stock $100,000), which controls the Canandaigua Gas Lt. Co., and also granted authority to execute mortgage for $35,000,000 and to issue $4,508,634 ($4,500,000 out) bonds at present. See V. 90, p. 914, 1425. For purposes of issues, see V. 88, p. 1500; V. 90, p. 914. In Jan. 1912 applied to Public Service Comm., Second Dist., for authority to increase stock to $25,362,500. V. 94, p. 68.

The Rochester & Eastern Rapid Ry. Co., previous to consolidation, increased its stock from $1,500,000 to $15,290,200 and purchased from N. Y. C. & H. R. RR. Co. and Cent. Ry. Syndicate the stocks of the first four companies above, ownership of which is now vested in the N. Y. State Railways.

Contract for Power.—Power for all lines is supplied under a long-term contract with the Roch. Ry. & Lt. Co., whose entire com. stock is owned by Mohawk Valley Co. (in turn owned by N. Y. C. & H. R. RR.). The Roch. Ry. & Lt. Co. has the following securities: Stock auth. and issued, $6,500,000 com. and $3,000,000 pref. Consol. M. 5s, dated 1904, auth., $16,000,000; issued, $9,401,000. See V. 92, p. 730. In Nov. 1911 Public Service Comm., 2d Dist., authorized the issuance of $1,998,000 additional consol. 5s to retire a like amount of Rochester Gas & Electric 5s, due Nov. 1 1912. V. 93, p. 1464. In addition to being a lien on property these consol. 5s are secured by deposit of $4,500,000 N. Y. State Rys. first consols. V. 92, p. 726. In Dec. 1911 the trustee of the Roch. Ry. & Lt. consol. mtge. brought suit in Supreme Court at Monroe County to procure the Court's decision as to its right to release, at request of railroad company, part of the N. Y. State Rys. consols held as collateral, so that same may be sold for extensions, betterments and improvements. V. 93, p. 1789.

ST. LOUIS, MO.

UNITED RAILWAYS CO. OF ST. LOUIS.

Is controlled by North American Co. of New York.

ORGANIZATION.—Incorporated in Missouri on March 11 1898 as the Central Traction Co., but changed its name to above on July 10 1899. In July 1905 interests friendly to this company purchased the St. Louis St. Charles & Western RR. at foreclosure sale. In Oct. 1906 absorbed the St. Louis & Suburban Ry., giving its preferred stock, share for share, for the stock of that company. The United Rys. guarantees the $4,500,000 gen. mtge. bonds of the St. L. & Sub. Ry. See V. 83, p. 39; V. 84, p. 105.

The United Rys. Co. comprises all the street car lines in operation in St. Louis. *Franchise* in St. Louis expires April 12 1948. It was originally leased to the St. Louis Transit Co., but under a readjustment arranged in Oct. 1904 by Messrs. Brown Bros. & Co. (V. 79, p. 1333) the lease was canceled and the $17,264,300 stock of that company nearly all exchanged for voting trustees' certificates for common stock of the United Rys. Co. on the basis of $500 Transit stock for $200 voting trustees' certificates.

Under this plan, the $20,000,000 refund. and impt. mtge. bonds of the St. Louis Transit Co., of which $8,000,000 had been issued, were canceled, and in their place the same company issued $10,000,000 of 5% improvement bonds, guar. by the United Rys. Co. of St. Louis, this guaranty being secured by a mortgage on all of that company's property next in rank to that of its general mtge. These improvement bonds are now the only outstanding security of the Transit Co. Of this issue, $8,000,000 took the place of the $8,000,000 ref. and impr. bonds above mentioned, and the remaining $2,000,000 went to the syndicate as part consideration for $7,000,000 of cash which it provided for taking up at maturity on Nov. 1 1904 the $5,776,000 3-year collateral trust notes of the Transit Co., and for meeting the cost of street paving required on the part of the city, and other improvements.

Tax Decision.—On Feb. 14 1910 the State Circuit Court at St. Louis overruled the demurrers of the company in 5 suits brought by the city to collect the 1-mill-per-passenger tax, holding that the tax is not oppressive or a double one because of franchise tax already imposed. V. 88, p. 744; V. 90, p. 504. Case not yet tried on its merits.

Compromise Ordinance Defeated.—In the summer of 1911 the compromise plan (V. 92, p. 727) settling sundry points at issue with the city, introduced in both branches of the St. Louis Municipal Assembly on Mch. 10 1911, was defeated.

ORGANIZATION.—Incorporated Nov. 8 1878. *Franchise* expired in November 1903 and thereafter was operated by permission of city, paying it 5 % of gross receipts. Road ceased operations on May 5 1907, refusing the demands of the street car union of $3 for eight hours' work. On Sept 17 1907 road resumed operation under special authority by Mayor and Board of Supervisors upon payment of 10 % of gross receipts monthly, the company reserving the right as to wages of employees. We are informed, however, that in the latter part of 1908 only 5% was paid, and that this rate has been continued up to the present date (Jan. 1912).

In 1907 the city of San Francisco appropriated $720,000 in the annual budget for the building of a conduit system, under municipal ownership, but Judge Sturtevant Dec 2 1907 held the appropriation invalid. See V. 85, p. 1518. At an election Dec. 30 1909 it was voted that the city issue $2,020,000 bonds for the reconstruction, extension and operation of the road by the city. V. 90, p. 54. On June 25 1910 California Supreme Court, affirming the judgment of the Superior Court (V. 90, p. 1170), sustained the validity of these bonds. V. 91, p. 38. $900,000 have been sold (V. 92, p. 594, 881), but up to Jan. 1912 road was still being operated by the company. As to progress of reconstruction of road by the city, see V. 93, p. 105.

On Sept. 12 1910 Judge Van Fleet in the U. S. Dist. Court issued an order (as a result of a suit brought by the United RRs. of San Fran.) restraining the city from building portions of the proposed new lines. V. 91, p. 790.

ABBREVIATIONS, ETC.

The terms and abbreviations employed in this SUPPLEMENT are explained in the following:

"STOCK AND BONDS."—Under these words are shown—

"STOCK."—The amount of stock *authorized* immediately follows the word "stock," and against this is the par value of single shares. For example: 'Stock, $200,000 ($100),' means stock, total issue authorized by charter or by Act of Legislature, $200,000, divided into shares of $100 each; "f. p." following the amount given as outstanding means "full paid."

"Pref.' means "preferred stock." "Pref. 6% cum." means preferred stock entitled to dividends of 6% per annum, such dividends if not paid accumulating, all dividends due and unpaid to be paid in full for each and every year before the common stock receives anything. "Pref. 6% non-cum." means simply that the stock is entitled to 6% per annum if earned, but that if unearned in any year the dividend for that year will not be paid subsequently.

"BONDS."—"Mort." or "M." means mortgage. "Consol." or "con. M." means consolidated mortgage. "Gen. M." means general mortgage. The amount next following is the total authorized amount that can be issued under the mortgage. The word "gold" is usually spelled out, but in some instances is contracted to "g.," while "cur." means currency.

"Conv." means convertible into stock. "S. f." means sinking fund. "c." means coupon; "c*" means coupon but may be registered as to principal; "r" means fully registered (no coupons), "r*" means registered, convertible into coupon bonds; "c*&r*" means registerable in either form and convertible from registered to coupon or the reverse: and "c*&r" means that registered certificates without coupons as well as coupon bonds are outstanding. The letters "p. m." mean per mile, so $15,000 p. m. means that the issue of bonds is restricted to $15,000 for each mile of track. "Guar." means guaranteed, and "guar. p. & i. (end.)" means guaranteed as to principal and interest, the guaranty being endorsed on each bond.

"DATE."—The date of issue on the face of the bonds is indicated under the word "date."

"INTEREST."—Under this heading is given the rate per cent yearly of the interest payable on the bonds or (if guaranteed) of the dividend payable on the stock; also the months when the interest or dividend is payable; thus, "6 J-J' means 6% per annum payable January and July; correspondingly "F-A" is used to mean February and August; "M-S" means March and September, and so on; while "Q-J" means quarterly beginning in January and "Q-F" quarterly beginning in February. (The day when the interest payment is due can generally be determined by noticing when the loans mature, the day of the month there given being in most cases the same as for one of the interest dates)

"ROAD."—The word "track means in Street Railway parlance all track, whether main line, siding, switch or second track. "Rails are 60-lb. girder" means that each rail weighs 60 pounds to the yard.

ECONOMIC POWER SUPPLY FOR CITY RAILWAYS.

By common consent of the large gathering at the April meeting of the American Institute of Electrical Engineers, the address given by Mr. Samuel Insull, President of the Commonwealth Edison Co. of Chicago, on the "Relation of Central Power Stations to Railways", was received as marking definitely the full recognition of the new stage upon which railway electrification has entered in the United States. In the discussion, participated in by several of the foremost electrical authorities of the country engaged in the development of electrical railroading—for it was under the auspices of the railroad committee of the society that the subject was taken up—one speaker described it as the most important and monumental address he had heard at the Society's meetings in years. Another praised it as a remarkable illustration of creative imagination in which theory was supported by the practical success of a decade's working out of a business idea.

Mr. Insull's conception of the unification of the sources of electric car supply is not, indeed, a novel one. Electricians of the last generation had prophesied and expressed their faith by pioneer work. It has been Mr. Insull's good fortune to show in the instance of Chicago how unification of power supply can be practically effected with a great saving in cost and in the provision of electric power at cheaper rates for the benefit of the community. Mr. Insull, as regards the larger aspect of his address, paid tribute to the presidential address of Mr. Ferranti a year or two ago before the British Institute of Electrical Engineers, in which a scheme of generation and distribution was outlined for the whole of Great Britain. It was estimated that a saving of coal could be made there of 80,000,000 to 90,000,000 tons a year. Mr. Insull, applying the same idea to the United States, computes that the conservation of fuel here would amount to from 200,000,000 to 250,000,000 tons a year.

The principle underlying the economy is the greater and more efficient utilization of the energy which a central station plant must be capable of delivering but which is now only fully (or approximately) employed at certain periods of the 24 hours to meet the varying demand made upon it. What is known as the diversity factor plays a great part in the suggested linking up of isolated plants or the substitution of one or two great stations for a number of smaller units. The saving is effected by running under one system a number of operating plants. The reason for the low generating cost in Chicago, Mr. Insull explains, is because of the combination of the supplied energy for different purposes in one generating system. The diversity of demand is the fundamental basis in the profit-making of an energy-selling company. It is, therefore, advisable for electric railways operating in and around cities to consider seriously whether it is not cheaper to purchase their power from such diversity-using power plants than to install their own plants, on which heavy fixed charges must necessarily be fastened from the first.

It is noteworthy that no sooner had the scheme for the development of New York's electric traction on a comprehensive plan been practically adopted, so that the full area of the city was embraced, than the two great electric lighting and power companies of New York and Brooklyn made offers to the Public Service Commission to furnish the motive power from their stations, already supplying power for many purposes, but still able to provide for the extra demands of railway operations. This diverse utilization of electric power for great railway systems, as well as for factory, mining, lighting and heating needs, has already been carried to great lengths in the northeastern districts of England, and its practicability has been amply demonstrated in Europe and America.

It came as a surprise to most of the engineers assembled to be told that, as regards the electrification of street railways in any city, the railroad demand for energy is only about 15 to 20 per cent of the total demand for energy in any community. This is well within the capacity of modern central stations to supply after taking care of lighting and other requirements now met by them in many large cities. Obviously, therefore, it is well worth while for a railroad that is planning the electrification of its urban and suburban divisions to consider the advantage of

taking the electric power wanted from the source of energy supply already existing. It is equally desirable for municipal authorities devising a comprehensive scheme of city electric transit and transportation to consider how this may be carried out in the most economical and convenient way by the installation of a few large central stations instead of a number of isolated plants. This factor of the unification of power supply, will have, as Mr. Frank J. Sprague remarked, a more important bearing on the matter of electrification of traction lines than any technical discussion on the systems to be employed. The system finally decided upon must be one which fulfills conditions of railroad operation, while making it possible for the operating company at the same time to take advantage of the cheaper cost of energy supplied by central stations already existing, as compared with the cost of power supplied from stations and installations of its own.

Mr. Insull put forward the proposition, based on charts of actual operation, that the amount of energy required to operate the terminal and suburban systems of all the trunk lines centering in and around New York is less than the amount of energy required to operate the isolated electric lighting plants in the same territory. The realization of this considerably reduces the seriousness of the problem and removes some of the first apprehensions that the magnitude of the task might cause. Compared with the difficulties confronting isolated plants twenty and even ten years ago in extending the sphere of their operations and utility, the task of a properly equipped central station in adding the supply of power for electric railway traction purposes to its other loads is not so formidable.

Mr. Insull based his thesis on the solid bed rock of practical operations as shown in graphic charts of the generating plants of the Edison Companies of New York and Brooklyn and The Public Service Corporation of New Jersey, the power houses of the street railways and subways, the load diagrams of the Pennsylvania and New York Central entering New York, together with diagrams showing the total electric power load of Chicago, Boston and Philadelphia. A comparison of the various peak and load curves of the electric power utilized in these cities affords material of the highest value for engineers and financiers alike. The charts clearly show that the passenger business in all these large cities is governed by exactly the same conditions, and the curves throughout the year will probably be all about the same, except that Chicago might vary in the summer from having a less amount of pleasure business than the Eastern cities. Thus, Mr. Insull concludes that the concentration of the production of energy for all purposes required in a given area of population would result in such a saving of capital, and such a saving in operating expenses, as to provide sufficiently for the generating capacity and primary transmission systems necessary to electrify the terminal systems and suburban service of all trunk lines centering in and around any large centre of population, and particularly New York, and might yield very large profits in addition to the engineers and financiers having the courage to handle so great a problem.

A great waste of money, Mr. Insull predicted, would follow the establishment of separate power stations if this proposed concentration for using the available energy to its full capacity were not adopted. At the end of ten years this waste on a five per cent basis would, he estimated, amount to between $140,000,000 and $175,000,000, if in New York the traction companies have their own separate source of supply, if the electric light and power companies have their individual generating plants, and if the steam railroads that are apparently on the threshhold of electrification have, as well, their own sources of supply. The direct saving by a concentrated system of generation and primary distribution, on the other hand, would provide the necessary funds for that portion of steam railroad electrification centering in New York of itself. The cost of combined generating stations and combined primary distribution would not be much over $100 to $110 a kilowatt for the total steam railroad requirements of about 170,000 k. w.

THE STEEL RAIL IN CITY RAILWAYS.

In the current discussion upon the manufacture of steel rails for railroads, consideration of the requirements of the trunk steam roads naturally takes precedence, and but little has been heard of the particular needs of the urban electric railways. This may be accepted, perhaps, as a compliment to the electric street railways as showing that in the early stages of what is still a juvenile institution the managers and operators of the city railways adopted from the first a fairly high standard and have duly maintained it. At any rate the praise bestowed on the electric railway companies by the Public Service Commission of the First District, New York State, seems to be well merited. The Commissioners in their fifth annual report, covering 1911, say "all of the companies operating high-speed electric railroads in this Public Service District, with a very few exceptions, maintain a capable and efficient engineering department. The heads of these departments have adopted standards of maintenance based on steam road practices. Such systematized methods have not only resulted in proper condition of track at present, but will most likely insure such conditions from year to year in the future." Sufficient proof of this was mentioned in the fact that there was not a single instance of derailment during the past year.

No doubt the good condition of track and roadbed accounted for this, but the Commissioners might have gone further, inasmuch as the character of the rail used that leaves a greater margin of safety as compared with that carrying the heavy freight traffic of the steam roads must be fairly considered an element in the safety established.

Speaking generally, the rails required by city electric railways do not differ from those of the ordinary steam-road tracks in regard to manufacture. The great city traction systems, however, have been spending more freely, it seems, in procuring rail of the best known quality, in view of the more rapid wear and tear consequent upon the constant and continuous use in the rapidly growing and congested city sections. In the total production of steel rails in the United States the electric road demand has shared in the tendency to use the open-hearth process to a greater extent than the Bessemer. The use of the open-hearth system has been growing steadily since 1899, but last year was the first in which the open-hearth total production surpassed the total output of the Bessemer rail, the latter falling from 52.7 in 1910 to 40.2% of the total production last year. It is worth noting in passing that this total rail production exhibited a decline of no less than 813,841 tons in 1911, compared with the previous year.

The increase in the manufacture of rails by the open-hearth process has been particularly noticeable in the heaviest class of rails, and this is just as might be expected from the requirements of the city rapid transit companies. The incessant wear of the tracks on the subway and elevated lines of New York, for instance, necessitates the replacing of rails, especially at curves, every six months. As the wheel tonnage passing over the city systems is increasing out of all proportion to that on the steam roads, the wear of the rails is at least on the average double on the electric roads, compared with that of the steam roads.

To meet the varying conditions, the chief companies, like the Interborough of New York, use a rail of rolled manganese steel for its curves worth $90 a ton, the price of the ordinary rail being $28 a ton. But this high-class rail, with its 10 to 15 per cent of manganese in the alloy, promises to give five times the wear of the ordinary open-hearth rail. Experiments and tests at the mills were very elaborate before the rail was approved and selected for use. It was found that its ductility was remarkable and that it gave reasonable safeguards against accidents due to brittleness occasioned by severe winter weather, other climatic fluctuations and flaws due to piping, corrugation and similar weaknesses.

The length of time for which electric traction in subways has been in operation in New York and other great cities and the careful data amassed by the engineers of the companies concerned afford material of the most valuable kind in the discussion of rail manufacture at the present time. There is, of course, a radical difference involved where the objects differ in such considerations as whether light or heavy rail beds and light or heavy rails are required, according to the relative frequency of the traffic passing over them. On the systems of the chief cities which are more and more becoming a combination of tracks enclosed in tunnels and subways and tracks exposed to weather in the street, surface and elevated roadbeds, nearly every conceivable condition is found. No doubt, many subtle mysteries in the influence of electricity have yet to be unveiled by the scientists and many difficulties can only be solved in the ordinary course of practical operation by the engineers of the companies themselves as they may be daily confronted with them.

It is satisfactory to know that every foot of the track and rail in the tunnels and subways of New York is under constant inspection. While new problems present themselves, many of the first apprehensions have been removed from consideration by practical experience. By way of example, it may be mentioned that the tunnels under the East River as time goes on seem likely to have their stability increased rather than diminished. At any rate the accretion of river sediment around and above them where they were not driven through solid rock has apparantly made a coating so that in the three miles of tunnel construction under the East River the original leakage of 67 gallons a minute is now no more than 15 to 20 gallons. In the new construction to be undertaken by the New York Interborough the 100-lb. is to be the standard in the subways, but there is a difficulty in substituting this heavier rail for the lighter 90-lb. laid down on the older elevated tracks, since alterations of platforms and other changes, due to difference of size and having far reaching incidental consequences, will have to be taken into consideration.

Rail study has, as yet, had scarcely any better exposition than in the recent examination of 105 miles of the Chicago surface lines to locate all corrugations and measure their depth and length. The immediate purpose was to facilitate the work of rail grinding, as it had been found that vibration was increasing to such an extent through the wear and tear of the rails that the cost of maintaining the cars was materially increasing. Consequently, it was decided to test, if possible, how far this vibration was due to corrugation of the rails, as shown by the depth of the waves along the track affected. The precise records obtained will be extremely useful for those engaged in maintenance of tracks and cars. Much light is thrown, especially by the data obtained, upon the action of traffic upon rails at various speeds and in particular locations, the age of such rails varying from one to four years, the kind of foundation, generally of concrete in these instances, and the kind of ties, principally of wood but of steel in some sections.

The maximum percentage and depth were found to occur on a section of the Chicago City Railway Company's lines, where the foundations are the most rigid, the traffic is densest and car operation is of the highest speed. In this case the depth of wave was recorded as .011 inch, the wave length 3.66 inch and the percentage of corrugation 65.25. The corrugations were always found, as expected, on the outside rail on high-speed curves, at the foot of steep grades and often on approaches to sharp curves. As, of course, is the ordinary experience on steam railroad tracks, the minimum percentage and depth of corrugation on the urban electric tracks occurs in the less rigid foundation and where the traffic is slow and the ties are of wood. The type of rail used on all the sections of the Chicago railways, it may be noted, is the 129-lb. 9-inch grooved, girder. From these Chicago observations—the first large-scale practical investigation of its kind in this country—the intimate relation between the condition of the rail in respect to its wear and tear and the easy riding of the car and the effect on maintenance costs may be plainly seen.

TRANSIT OPERATION IN GREAT CITIES.

Court decisions and Governor Dix's signature to bills passed by the New York State Legislature removed the last obstacles of importance to the immediate carrying out of the comprehensive scheme of electric railway traction devised with so much labor and pain for the transportation of New York's population. Out of the wearisome and often heated controversies, from the prolonged negotiations and conferences between the authorities concerned, and amid the babble and bluster of irresponsible and self-interested parties, has been evolved a scheme which, as the resultant of several forces at work in common, may be accepted as satisfactory. Like most public bargains and settlements of this nature between communities and private corporations that have established claims to vested rights, the plan adopted for New York City is a compromise. Time alone can test and give sound warrant for the main fundamental principles on which it is based. It is not a unification of the lines at present in existence—street, surface, elevated, subway and tunnel lines of Greater New York—that may be in process of evolution. At present it is a "dual" arrangement under which a great step forward is taken in articulation

of the two great companies in control in New York and Brooklyn. The significance of such an event will be noted at once in communities all over the wor'd, whatever the stage and growth of the cities and towns engaged in solving as best they can the problems of urban, interurban and suburban transit and transportation. Valuable information and experience are placed in the common stock by New York's decision. A great addition has been made to the sum of general experience on questions of municipal ownership and municipal operation. After allowing for particular circumstances and limitations due to local factors applicable only to the individual case, the stock of material from which lessons may be learnt—what is advisable for imitation and what should be or may be avoided—has been immensely increased.

London, Berlin, Paris, Buenos Aires and other capital cities have worked out problems similar to those of New York, and New York and Chicago may obtain much reciprocal aid from them in the study of electric railway construction, material and transportation. There can be no doubt that the municipal authorities and their engineers of Chicago, Pittsburgh, Philadelphia, Boston, Cleveland, Los Angeles, Montreal and Toronto, to name some of the cities in which the municipalization of electric railway is at the present time a burning question in its various phases, are realizing the importance of the example of New York. In the adjustment of an electric railway system to a municipal community the physical element cannot be separated from the financial. While the satisfaction of the traveling public in its demand for quick, convenient and comfortable carriage is a paramount requisite in proportion to the burden falling upon it of taxation, and as an equivalent in the character of the service given for the payment of fares, a fair and reasonable return has to be guaranteed to those willing to provide the capital funds necessary, that the public benefit may be more speedily achieved. In New York, as in Chicago, public opinion regarding transportation matters cannot but have received much enlightenment in the course of the long discussions upon the proper relationship between the delegated city authorities, the traction companies and the riding public. How a flexible system can be contrived adjusting itself to rapidly developing populations, and yet allowing for shifting centres of congestion, with due regard to property values for purposes of a city's assessment, is a problem of the first magnitude.

In some cities the city plan and map were unfortunately established on arbitrary lines prior to the introduction of city railways and prior to the realization of the necessity of a logical comprehensive plan for transportation routes, in view of the many factors involved in the future growth of the city, physically and socially. Radical alteration has become impossible, owing to the existing outlay of street, main sewer, gas, electric light and power suppy and aqueduct systems. But in younger cities where it is not too late, and where, apart from the business centre, the residential zones or quarters have not become definitely fixed, it is folly for the civic authorities to ignore the lessons to be learnt from instances of a haphazard development or an irrational gridiron original plan of street and city lots.

Intelligent foresight may save the imposition of excessive taxation charges upon not only the future but the present generation. In the modern city it is absolutely necessary that the transit and transportation systems should be projected and designed by the civic heads for the prevention or relief of congested districts, as well as for rapid locomotion. This common sense precaution applies in respect of trackage for freight as well as passenger transit, though the need for freight lines to suitable distributing centres within a city's area has scarcely yet begun to be appreciated. Perhaps this is hardly to be wondered at when it is remembered that the first city electric line, that of Richmond, Virginia, dates only from 1887.

New York, Chicago, Pittsburgh and many other cities now in the throes of electrification have, however, really entered upon a new era of physical improvement. Special commissions have investigated the various questions bearing upon the operation and equipment of urban and suburban electric railroads and their extension to undeveloped territory. As Mayor Magee of Pittsburgh expressed it in his letter of authorization which, in due course, produced the extremely valuable report of Bion J. Arnold, the subject of transportation is perhaps the most important matter before the people of that city. It is so in many others. The ground work for such comprehensive schemes has been well laid by careful investigation as to what new rapid transit facilities are needed and to what extent capital would be justified in making investments on this score and what technical and financial limitations may exist in the promotion of subways, elevated roads and electrified steam roads. Making due allowance for the special circumstances and conditions for each city, it is clear from a general survey that the lines of procedure are becoming fairly well defined. Civic commissions, mayoral action, employment of expert knowledge, the formulation of a definite suitable policy and plan lead up to their execution under the supervision of a qualified board of engineers and railway operators, in collaboration with the municipal authorities.

In solving its own particular problem each city may benefit from the experience of its sisters which have already passed through the earlier stages. For instance, New York has probably secured a better financial arrangement for itself than Chicago obtained when the latter effected a working settlement with the railway companies in 1907. New York had a stronger position as regards immediate municipal ownership and was able in the details of the settlement recently arrived at to insist upon certain arrangements for amortization and depreciation, rehabilitation, and reserve for new undertakings, the need for the provision of which in the earlier settlements was not fully realized. Possibly some millions might have been saved the public purse of other cities had the principles now generally accepted in framing the financial details of such settlements been then in vogue and better understood.

New York, on the other hand, will do well to borrow from Chicago whatever may be found useful in the experience and methods of handling freight on the railway tracks within the confines of the city in close connection with waterfront and warehouse. Inasmuch as the cost of transportation depends in a great measure upon the transmission of the power employed, the experiences of San Francisco and Los Angeles are worth consulting. In the latter city it is a moot question whether oil would not be a more economical fuel than coal and whether the motive power derived from it would not be preferable to that supplied from hydro-electrical plant or electric long-distance cable. The comparative cost of an oil pipe as against an aqueduct from the mountains or a high-voltage conductor needs to be carefully worked out. The proposal at Boston to spend a hundred million dollars on a comprehensive scheme of urban railway unification makes Mr. Insull's recent criticisms of the superfluous installation of a power-supply station a timely hint where much money may be saved or used to better and more profitable purposes. All these instances, and others that might be cited, both in America and Europe—where cities are wrestling with the same problem, go to show the universality of electric railway science and practice.

SECURITIES AND REPORTS.

This is one of our six Sections or Supplements. In using the series it is to be remembered that they are inter-dependent publications, complete only as a whole. If utilized together, and with the fresh items of news the "Chronicle" contains from week to week, the investor will have all the information he needs in seeking a safe and remunerative lodgment for his money.

Street and Electric Railways forcibly illustrate this inter-dependence. Such roads obviously rely for their income, and therefore in great part for the value of their securities, upon the population and activity of the country they serve. Hence constant reference to our "State and City" section will be found necessary by those wishing to purchase the stocks and bonds of street roads. Population, assessed valuation, tax rate, total debts of the counties, cities and minor municipalities are given at length in that publication, every one of which items is an essential fact contributing more or less to any correct estimate of the amount of suburban travel a given road commands.

The *abbreviations* used in our Electric Railway statements will be found explained in a table immediately following the last statement in this publication.

A full *Index*, which shows where each railway will be found, is also given on the closing pages.

THE MARYLAND ELECTRIC RAILWAYS CO.

ORGANIZATION.—In 1906 the charter of the Maryland Elec. Ry. was acquired by interests friendly to the United Rys. & Elec. for the purpose, among others, of using that company to finance the needs of the United Rys & Elec. Co., for additional property, and charter amended by Legislature in 1906 to adapt it to that purpose. In Aug. 1906 was consol. with the Baltimore & Annapolis Short Line, which latter line has since been electrified. The Maryland E ectric Railways then acquired car barn sites, terminals, &c., and is erecting buildings, constructing extensions, purchasing equipment, &c , which is leased to the United Ry. & Electric Co. for an annual rental of 6% upon the actual cost of the property. BOSTON, MASS.

BOSTON ELEVATED RAILWAY.—(*See Map on page* 13.)

ORGANIZATION.—Charter granted in 1897 provides for an extensive system of free transfers. The company also, in addition to regular street railway taxes, has to pay ⅛ of 1% of gross "earnings of all lines owned, leased or operated by it," and a sum equal to the excess of the dividends over 6%. Its charter, however, is understood to "grant it exemption from reduction of fares, and also other immunities." (See Massachusetts RR. Commission, V 65, p. 1223.) Elevated cars run with electricity by "third-rail" system; surface lines by trolley. Six miles of elevated road opened in June 1901; in Aug. 1901 put in operation the Atlantic Ave. Loop Division.

Extension.—An extension of the elevated road to Forest Hills was put in operation Nov. 22 1909; V. 89, p. 1410. In April 1905 $7,500,000 new bonds were issued to provide for this extension and for payment of floating debt, &c. See V. 80, p. 1423.

On April 29 1903 leased from the Old Colony Street Ry. (now merged in the Bay State St. Ry.) all that company's tracks in the city of Boston, amounting to 23.753 miles. The lease is for 99 years and provides that besides paying taxes the Elevated Co. will pay 6⅛% of replacement value (appraised at $353,979, less the rental of certain short pieces of track appraised at $13,866) of the property leased as of date Feb. 16 1903, and 4% on the cost of all additions and betterments.

Lease of West End and Subway and Tunnels.—The West End Street Ry. is leased until June 10 1922.

In Dec. 1896 the West End Street Ry. leased the right to use the Tremont Street subway in Boston. See terms under West End Street Ry.

On Dec. 24 1904 the East Boston tunnel (under Boston Harbor) was leased by the Boston Elevated Ry. until June 10 1922 for a rental of ⅜ of 1% of earnings of all lines owned, leased or operated. The company also collects a toll of one cent per person, which goes to the city; but under the general extension of contracts made in 1911, this provision will be eliminated after June 10 1922. The tunnel was opened Dec. 30 1904. It extends from the main land to East Boston, 1.4 miles, and cost $3,500,000.

On June 28 1902 Washington Street Subway bill became a law. The city has constructed a tunnel for elevated trains and leased same to the Boston Elevated Ry. for 25 years at an annual rental of 4½% of total cost of construction, which up to June 30 1911 was $8,224,702. V. 88, p. 98. Proposition was ratified by voters at Dec. 1902 election. V. 75, p. 28, 496, 1315; V. 77, p. 2097; V. 82, p. 217. The Washington Street tunnel began operation Nov. 30 1908. V. 87, p. 1477. In 1907 an Act was passed modifying plans somewhat, and permitting Boston Transit Commission to construct a subway to be known as the Riverbank Subway, but this was repealed in 1911.

Suoways in Cambridge.—In June 1906 a measure passed by the Massachusetts Legislature became a law, which permits the Boston Elevated to construct two subways in Cambridge, and to issue stock or bonds to meet the cost. At the end of 20 years the city of Cambridge is to have the right to purchase these subways by paying their cost plus 7% interest, less dividends. V. 83, p. 93. See remarks concerning these subways in company's report for 1906, as given in V. 84, p. 155. Work on subways was begun Aug. 12 1909. The company in 1908 filed with the Mass. RR. Comm. preliminary estimates of the cost, showing an aggregate of $10,639,278. See V. 87, p. 1662. On Jan. 4 1912 the first through train was run in the new subway; it was opened for public travel Mch. 13 1912. V. 94, p. 1185.

New Construction of Subways and Old Contracts to be Extended.—In July 1911 Mass. Legislature passed an Act (accepted by the city and Bost. Elev. in Sept. 1911) providing for the construction by the city of three additional subways, viz., Dorchester Tunnel, Boylston St. Subway and East Boston Tunnel extensions and the extension of all existing contracts until July 1 1936, the date to which contracts for new lines are to run. Annual rental after expiration of old contracts to be as follows: Tremont St. Subway (see under West End), 4½% on net cost; East Boston tunnel (now expiring June 10 1922), 4½% on net cost (provision for tolls from passengers using the tunnel eliminated for extension period); Washington St. tunnel (now expiring Nov. 30 1933), 4½% on net cost. Annual rental for new lines: Cambridge connection, for first 20 years, 4⅛% on net cost; thereafter 4½% on net cost; Dorchester and Boylston tunnels and East Boston tunnel extension, 4½% on net cost. The Act also provides that all contracts are to continue after July 1 1936 until terminated by a two-years' notice by either party. The various new leases and extensions of old leases were signed by the parties thereto on Dec. 7 1911. V. 93, p. 1785.

Damages by Noise.—In Aug. 1902 Judge Mason, in the Superior Court at Boston, held that the company is liable for damages from noise caused by the operation of trains. V. 75, p. 496. This was affirmed April 1903 by Massachusetts Supreme Court. V. 76, p. 809.

Consolidation with West End Street Ry.—In July 1911 Massachusetts Legislature passed an Act (signed by the Governor on July 21 1911) superseding that approved May 28 1908 (V. 86, p. 917, 1342), permitting the consolidation of Boston Elev. and West End St. Ry. at the expiration of the present lease, on June 10 1922. 8% cum. 1st pref. stock of Bost. Elev. (having the ordinary voting powers, but not "entitled to participate in any increase or issue of new stock, com. or pref."), to be issued, $ for $, for West End pref. and 7% cum. (or 8% if arbitrators so decide) 2d pref. (having all voting powers without exception) for com. stock of West End. After the issue of the new pref. shares no other stock to be issued "prior or equal to such 1st pref. and 2d pref. stock without the consent of two-thirds of the holders of such stocks, respectively." The Act also provides that the Street Ry. shall forthwith sell to the Elev. Co. all unused real estate, the proceeds not exceeding $1,500,000 to be invested as a special trust fund and accumulate until June 10 1922. Thereafter the annual income thereof shall be applied to cancellation of 2d pref. stock. When all the 2d pref. has been retired then said fund shall be applied by the Elevated Ry. Co. to any purpose for which stock and bonds can legally be issued. See terms of Act in V. 93, p. 344. Shareholders of both the Boston Elev. and West End St. Ry. approved the Act; the former on Aug. 24 1911 and the latter on Sept. 6 1911. V. 93, p. 666. Holders of West End com. and pref. stock may on or before June 10 1922 exchange their stock at par for Elevated Ry. common. After June 10 1922 holders of Bost. Elev. 1st or 2d pref. may exchange their stock for an equal amount at par of Bost. Elev. com.

West End interests have a suit pending in Federal Court to test the constitutionality of the merger Act.

ORGANIZATION.—This company is a voluntary association formed in Nov. 1901 on the same lines as the Massachusetts Electric Companies. The properties controlled are the Lexington & Boston Street Ry. and the Middlesex & Boston Street Ry. (into which the Natick & Cochituate St. Ry., the Westboro & Hopkinton St. Ry., the Newton & Boston St. Ry. and the Newton St. Ry. have been merged). The entire issues of the stock of these roads have been acquired. In 1902 also purchased Norumbega Park and Lexington Park. In 1908 Massachusetts Railroad Commission sustained action increasing fares on several of the subsidiary lines from 5 to 6 cents. V. 87, p. 345. Waltham Gas Property.—In 1902 secured entire ($324,700) capital stock of the Waltham Gas Light Co., V. 74, p. 377. On April 28 1909 shareholders voted to sell property and liquidate company. The price received was $1,100,000, but $350,000 went to retire outstanding notes, leaving $750,000 cash. This was used to reduce Boston Sub. Elec. floating debt and to retire the shares of the latter originally issued to cover the Waltham Gas property. See V. 89, p. 720, 846, 1068.

STOCK.—Shares have no par value, but in case of liquidation the preferred shareholders will be entitled to $100 per share, with accrued dividends; the common shares participating pro rata in the remaining assets. (See V. 73, p. 1159, 1263.) In 1904 15,635 shares of preferred and 15,635 shares of common were offered to shareholders at $66 67 for one share of pref. and one share of com. jointly. MASSACHUSETTS ELECTRIC COMPANIES.—Street railways. (*See Map on page* 15.)

ORGANIZATION.—Formed in May 1899. Is not an incorporated company, but a voluntary association managed by a board of fifteen trustees, who hold the title to its assets. Messrs. E. Rollins Morse & Bro. and Tucker, Anthony & Co. of Boston, who promoted the combination, in June 1899, in offering some of the stock for public subscription ($1,000 of preferred and $500 common was offered for $1,050), stated that "the Declaration of Trust contains strict provisions against the creation of any indebtedness whereby any shareholder or trustee can be held to any personal liability." Comprised originally between 30 and 40 separate properties, but through consolidation there is now only one operating company, namely the Bay State St. Ry., practically all of whose common stock is owned by the Massachusetts Elec. Cos. The Hyde Park Elec. Lt. Co., formerly owned, was sold on Jan. 3 1912 to Edison Elec. Illum. Co. interests.

The system comprises electric street railway lines in 22 cities and 70 towns in Eastern Massachusetts and New Hampshire and Rhode Island, covering the greater part of the street railway mileage north of Boston as far as Nashua, N. H., and Newburyport and Gloucester, Mass., and south as far as Fall River and New Bedford, Mass., and Newport, R. I., connecting directly with the street railway system of Boston; also an electric-lighting property in Newport, R. I.

Both classes of shares are reported exempt from taxation in Massachusetts. The *Brooklyn City RR. Co.* is held under a 999-year lease dated Feb. 14 1893, guaranteeing all fixed charges, organization expenses, taxes and 10% dividend on $12,000,000 of stock. The lease is nominally to the Brooklyn Heights RR. Co., but the Brooklyn Rapid Transit Co. owns the entire capital stock of the Brooklyn Heights Co In 1898 the Heights Company leased the Brooklyn Queens County & Suburban RR. The lease was renewed year by year, rental being fixed charges, taxes and organization expenses. On July 1 1901 the B. Q. C. & S. began operating separately again. On April 1 1899 the Heights Company temporarily leased the Nassau Electric RR. Later permanent leases were made, but on June 30 1904 presumably in consequence of a decision (V. 79, p. 102) compelling the issuance of transfers, the lease of the Nassau Electric RR. was canceled.

The Brooklyn Heights RR. in April 1899 leased for the period of 999 year the Prospect Park & Coney Island RR. (see terms under the latter), the New York & Coney Island RR. and the Prospect Park & South Brooklyn RR., but the leases of these companies were assigned in March 1907 to South Brooklyn Rwy., which had been acquired by purchase in Feb. 1902. V. 74, p. 479. The South Brooklyn Rwy. owns the double-track road (1¼ miles) extending from New York Bay, near 38th St., Brooklyn, to 38th St., near 9th Ave., Bklyn, and in June 1907 increased its stock from $150.000 to $500,000.

In Nov. 1905 purchased at foreclosure for $262,000 the road of the Brooklyn & Rockaway Beach RR., 3¼ miles, from East New York to Canarsie, and later organized the Canarsie RR. Co., with $250,000 capital, to operate the road. V. 82, p. 1155. The entire stock of this company is owned by the Transit Development Co. Through elevated train service from the Broadway Ferry adjoining the Williamsburgh Bridge, to Canarsie was instituted July 30 1906. V. 83, p. 271; through service over the bridge to Delancey St., New York, was put in operation on Sept. 16 1908, the connection from Broadway Elev. to Bridge structure having been completed.

On May 21 1904 the Brooklyn Heights Railroad Co. signed an agreement with the city for operation of trolley cars over the new Williamsburg Bridge. See V. 78, p. 2013, 2386. Later the Bridge Operating Co was formed, with $100,000 capital, to operate local service on the bridge. See V. 79, p. 626. Through surface cars are operated over bridge by Brooklyn Heights RR., Nassau Elec. RR. and B'klyn Queens Co. & Sub. RR. Surface cars began to cross this bridge in Nov. 1904. V. 79, p. 2084

In Sept. 1909 cable line on Montague St. between Court St. and Wall St. Ferry was replaced by trolley.

Decision in Suit Against Brooklyn City RR.—On Feb. 25 1910 Referee D Cady Herrick in suit of Brooklyn Heights RR. Co. against the Brooklyn City RR., begun in April 1900, awarded judgment for $1,740,258 principal, with $1,616,680 interest from April 1 1894. See V. 70, p. 841; V. 80, p. 1174; V. 90, p. 558. Brooklyn City RR. has taken an appeal. V. 90, p. 625; V. 90, p. 770. Pending the appeal, Bklyn. City Ry. in July 1910 reduced its div. to 2% quar., ½ of 1% being retained quar and set aside in a special fund to be returned to stockholders if not used in settlement of Brooklyn Heights Co. claim. V. 91, p. 93.

Proposals for Subways in Manhattan.—On Jan. 10 1911 made a proposition to the Pub. Serv. Comm. to operate the 4th Ave. Subway in Brooklyn and to four-track the Brighton Beach Line. See details of proposition in V. 92, p. 117. On March 2 1911 and April 25 1911 made offers to operate subways and elevated lines to be constructed, affording rapid transit connections between all five boroughs. See V. 92, p. 593, 1177. See also report of special transit committee, approved by Pub. Sev. Comm., in V. 92, p. 1635. In July 1911 the city offered to enter into arrangements with the company looking to the operation by it, when same are constructed, of about 66 miles of subway and elevated lines, forming a new system in Manhattan, Brooklyn, Queens and Richmond. See V. 93, p. 43, 230, 285; also company's annual report in V. 93, p. 812. In March 1912 New York Legislature amended the Rapid Transit law so as to enable New York City to enter into contracts directly with the Interborough and Brooklyn Rapid Transit companies without public letting under the proposed dual plan of subway construction (V. 94, p. 912). Accordingly the Pub. Serv. Comm. on April 10 1912 directed its counsel to prepare forms of contract. See decision of Justice Blackmar in V. 94, p. 1057.

Valuation of Property.—In Dec. 1909 Bion J. Arnold, Consulting Engineer of the Public Service Com., in hearings on the application pending before the Commission to reduce fare to Coney Island from 10 to 5 cents, estimated the valuation of the physical property of the company, including percentages for contractors' profits, incidentals, &c., as $100,705,689; value of non-operative property, $2,511,099; total cost of reproduction alone, $103,216,789. (V. 89, p. 1595.) In this real estate has been taken at its assessed value, and Mr. Arnold thought that, allowing for this and other items, the total might be brought up to approximate the capitalization of the co.

Special Franchise Tax Reduced.—For decision allowing for obsolescence in fixing special franchise tax, see V. 91, p. 1511.

Express Matter.—On Jan. 1 1909 the contract with the American Express Co., under which the latter company had been using the Brooklyn Rapid Transit system for distribution of express matter, expired, and was not renewed. V. 88, p. 157.

Damage Suits Against Line in Union Street.—On May 2 1910 the Court of Appeals at Albany affirmed judgments in favor of property owners claiming injury from the construction of the trolley line in Union Street. V. 90, p. 1238.

The *Transit Development Co.* was organized in April 1903 under the Business Corporation law, with $25,000 capital, and is owned exclusively in the interest of the Brooklyn Rapid Transit Co. It is authorized to manufacture and sell power and to do general contracting work. On March 1 1907 special arrangement was made by which the concern furnishes power and takes charge of the maintenance and repair of all the railway properties in the Brooklyn Rapid Transit system, including their equipment. V. 84, p. 569. In June 1907 capital stock was increased to $500,000.

The American Railway Traffic Co. was incorporated in Jan. 1904 with a capital of $1,000,000 (of which $980,000 is owned by the Transit Development Co.) for the purpose of hauling and disposing of city's ashes and refuse. Contract with city expiring Dec. 27 1908 was not renewed and company will be dissolved. Is in process of dissolution.

Division of Territory with Long Island RR.—At an investigation by the Public Service Commission in Nov. 1907 it developed that on April 1 1899 an "agreement of alliance" had been entered into with the Long Island RR. for division of territory. "Long Island territory" is described as part of Queens County and the counties of Nassau and Suffolk, while "Transit territory" includes all of Kings County and part of Queens. Besides this, there is neutral territory consisting of College Point, Flushing, Jamaica and the islands in Jamaica Bay, into which neither may enter without the consent of the other.

Re-Classification of System Lines.—Owing to the opinion of the Court of Appeals in its decision upholding the right of the Brooklyn Heights RR. to charge 10 cents fare to Coney Island, to the effect that Article IV of the Railroad Law relates only to street surface railroads and that different provisions govern elevated and steam surface railroads, a re-classification of the roads of the system was made in March 1907 so as to limit the functions of each railroad to the operation of its own character of railroad. Accordingly the Brooklyn Union Elevated now operates only the elevated roads and the street surface railroad corporations operate street surface roads only. As part of this arrangement the leases of the Brooklyn Union Elevated RR., the Sea Beach Ry. and the South Brooklyn Ry. to the Brooklyn Heights RR. were terminated. The leases of the Prospect Park & Coney Island Ry., the New York & Coney Island Ry., the Prospect Park & So. B'klyn Ry. were assigned to the So. B'klyn Ry. V. 84, p. 569.

Transfers and Fares.—For decisions as to transfers, see V. 79, p. 2204, 2587. Also see V. 82, p. 1323. In Aug. 1907 the Appellate Division of the Supreme Court in Brooklyn held that cumulative penalties could not be collected for refusal to issue transfers—see V. 85, p. 404. In June 1906 transfer system was greatly extended. For decision as to expired franchises, see V. 82, p. 1101. In Dec. 1908 Public Service Commission dismissed a complaint to reduce the fare to Flushing from 10 to 5 cents. V. 87, p. 1604.

In Aug. 1906 the company's right to charge a 10-cent fare to Coney Island was disputed and riotous proceedings resulted. See V. 82, p. 379, 435, 686. In Jan. 1907 Court of Appeals sustained the company's contention as to the legality of the 10-cent fare. See V. 84, p. 101. On May 23 1908 Gov. Hughes vetoed a bill which, though general in form, was intended to provide a 5-cent fare from Manhattan to Coney Island. V. 86, p. 1342. On Mch. 8 1910 Pub. Ser. Comm. also upheld the 10-cent fare to Coney Island. V. 90, p. 696. On Jan. 31 1912 agreed to sell round-trip tickets on elevated lines only for 10 cents, good between 6 and 9 a. m. at Coney Island terminal and between 4 and 7 p. m. at Manhattan end from Sept. 15 to May 15. V. 94, p. 349. The round-trip fare of 10 cents good to Coney Island between 6 and 9 a. m. and good for return trip between 2 and 4:30 p. m., tried in summer of 1911, will be in effect from May 15 to Sept. 15. V. 94, p. 349; V. 93, p. 285.

On Feb. 13 1912 the Court of Appeals at Albany held that the Brooklyn Queens Co. & Sub. RR. is not required to give transfers for a continuous ride for 5 cents from Brooklyn to Jamaica. V. 94, p. 487.

Mortgages of Constituent Companies to Secure Advances by Brooklyn Rapid Transit.—In May 1907 the New York State RR. Comm. consented to the Sea Beach Ry., the Canarsie RR. and the South Brooklyn Ry. making mortgages of $2,000,000, $2,000,000 and $4,000,000 respectively to secure certificates of indebtedness issued by those companies to the Brooklyn Rapid Transit for moneys advanced for additions, betterments, &c. In June 1907 Brooklyn Union Elevated authorized a mtge for $20,000,000 and the Nassau Electric for $5,000,000 for same purpose; but in July 1908 Public Service Commission denied application for the approval of these latter two mortgages. See particulars V. 87, p. 224. No bonds will be issued under any of these mtges., which are created simply to secure the certificates of indebtedness as issued from time to time. The certificates cannot be issued at less than par and are deposited under the Brooklyn Rapid Transit first refunding mtge. V. 84, p 1181, 1246, 1550.

Mortgage for $150,000,000.—Stockholders authorized March 20 1902 first refunding 4% gold convertible bonds for $150,000,000. $59,356,000 is intended to retire all the existing bonds of the system (including

the $7,000,000 Brooklyn Transit 5s), and the rest for improvements, additions and new acquisitions, as needed from time to time. The mortgage provides that a fund of $5,000,000 in bonds or their proceeds be at all times at the disposal of the company for the purposes mentioned. See V. 74 p. 377. As this fund is reduced for any of the purposes authorized, more bonds may be authenticated by trustee and delivered to the company on its order. These bonds can be converted into stock, par for par, before July 1 1914, and are subject to call on any interest day until year 2000 at 110 and interest; after that at par and interest. See listing applications in V. 81, p. 1856, 1857, for list of securities pledged for the bonds; also listing applications in V. 82, p. 517; V. 83, p. 1122; V. 85, p. 1523; V. 86, p. 923, and V. 90, p. 786.

Bonds.—Of the $7,000,000 50-year gold 5s of the Brooklyn Rapid Transit, $3,000,000 went to stockholders for the assessment. For description of property covered by the mortgage, see V. 62, p. 1138. See also application in V. 67, p. 904.

Brooklyn City RR. mortgage of 1891 is for $6,000,000 and is a first lien on the old Brooklyn City road and a consolidated lien on the lines acquired by consolidation in 1890. Of the $6,000,000 issued, $4,373,000 are in the hands of the public and the balance is held in the guaranty fund.

Stockholders of Brooklyn City RR. July 10 1906 authorized a new mortgage for $6,925,000 to provide for refunding. V. 82, p. 1437. These bonds are subject to call after July 1 1915 at 110 and interest.

The total authorized issue of first consolidated mortgage gold 5s of the Brooklyn Queens County & Suburban RR. is $4,500,000, of which $1,616,000 are reserved for extensions, on which they will be a first lien. Of the $2,884,000 outstanding, $2,255,000 in 1898 were endorsed with the guaranty of the Brooklyn Heights RR. Co. as to principal and interest, and in Jan. 1899 provision was made for guaranteeing the remainder of the payment of $10 per bond. Both B. Q. C. & S. loans are subject to call in 1916.

The Sea Beach Ry. 1st 4s also are guaranteed as to principal and interest by the Brooklyn Rapid Transit Co. V. 65, p. 1219.

The Nassau Electric bonds are guaranteed (by endorsement on each bond) by the Brooklyn Heights RR. Besides covering the mileage directly owned they are a lien by a supplemental agreement upon the stock of the Coney Island & Gravesend Ry. and the Sea Beach Ry. and will become a direct lien on these lines should the latter become merged in the Nassau Electric. Of the total of $15,000,000 bonds authorized, the unissued remainder ($3,544,000) is for prior liens. See listing application in V. 72, p. 342.

Default. Int. due July 1 1910 and Jan. 1 1911 on coll. trust mtge. of 1899 was defaulted, but was subsequently paid, together with 5% int. thereon, on July 1 1911 and Jan. 2 1912, respectively. V. 93, p. 44, 1786. A bondholders' committee has been formed, A. H. Gillard, Sec., 23 Wall St., calling for deposit of bonds with J. P. Morgan & Co.; V.93,p.1786. Through arrangements made by the bondholders' committee, money to pay the July 1910 and Jan. 1911 coupons (subsequently paid by company, as noted above), also the July 1911 and Jan. 1912 coupons was advanced by J. P. Morgan & Co. V. 91, p. 945; V. 92, p. 261; V. 93, p. 44, 1786.

Owing to the unwillingness of the Pub. Serv. Comm. to permit the capitalization called for by the modified plan of reorganization (see plan, V. 90, p. 1675, and modification of same, V. 92, p. 261), on Mch. 22 1911 a "substituted plan" was filed, calling for (1) exchange of old coll. tr. 4s, $ for $, for new coll. tr. 4s of International Trac. Co. due July 1 1949, and limiting the issue to $18,335,000, instead of the $30,000,000 proposed; (2) deposit as collateral for new bonds, all the coll. now pledged for old bonds, incl. entire stock of International Ry., except that in place of unsecured certfs. of indebtedness of operating cos., there be deposited at least an equal amount of new International Ry. 5s; (3) establishment of a sk. fd. to pay off at maturity, on or before July 1 1949, all underlying bonds of operating companies or any new bonds of Railway Co. issued to refund same; (4) creation by International *Railway* of a $60,000,000 5% 50-yr. mtge., the latter to provide for the future capital needs of the property. See V. 94, p. 911.

J. laws and has acquired all the electric railways connecting the cities of Buffalo, Niagara Falls, Lockport, North Tonawanda and Tonawanda, together with all the street railway systems in all of said cities; also the electric railway connecting the villages of Depew and Lancaster with Buffalo. It also acquired the Canadian Electric Railway, traversing the entire length of the Queen Victoria Niagara Falls Park and connected it with the American system by the acquisition of the steel arch bridge at Niagara Falls and the Suspension Bridge between Queenston and Lewiston, which bridges have been equipped with trolley tracks On Oct. 30 1905 acquired the entire $80,000 capital stock of the Electric City Ry. In Jan. 1907 organized Frontier Elec. Ry., to build a line to connect with a proposed new bridge across Niagara River.

Bonds and Stock.—Of the $30,000,000 collateral trust mortgage, $12,285,000 were originally reserved to take up an equal amount of the underlying bonds of the allied and controlled companies outstanding, and $620,000 of that amount has been issued for that purpose, leaving $11,665,000 still reserved. Car trust certificates No. 2 are secured by title to 150 cars. They fall due in semi-annual installments of $30,000 each from Dec. 1906 to June 1916 inclusive. Car trust certificates No. 3 are secured by title to 50 cars. They fall due in semi-annual installments of $12,000 March 1 and $13,000 Sept. 1 from March 1 1908 to Sept. 1 1917.

Franchises.—In June 1906 we were informed that the majority of the franchises in Buffalo are practically perpetual, none in Buffalo or other cities and towns having then an unexpired term of less than 40 years, excepting only the Fillmore Avenue franchise, covering an extension of 6½ miles on the east side in Buffalo, which was limited to 25 years; also portions of Franklin, Pearl, Genesee, W. Seneca, Morgan, and W. Chippewa Sts.; extension of Morgan St. or Elmwood Ave., in the Terrace and College Place.

Consolidation of Constituent Companies.—On Feb. 20 1902 the International Railway Company was incorporated in New York with $10,120,500 stock, and in Aug. 1902 this was increased to $17,000,000, of which $16,320,500 has been issued (all owned by the International Traction Co.), as a consolidation of the following companies, whose shares had previously been held by the Traction Co.; V. 74, p. 427.

Buffalo Railway Co. (after Buffalo Traction and Buffalo Bellevue & Lancaster had first been merged in the same).

Buffalo & Niagara Falls Electric Railway.

Buffalo & Lockport Railway (after Elmwood Ave. and Tonawanda Electric Railway had been merged).

Buffalo Tonawanda & Niagara Falls Electric RR. Co.

Lockport & Olcott Railway.

Niagara Falls & Suspension Bridge Railway (after the Niagara Falls Whirlpool & Northern Ry. had been merged in it).

Niagara Falls Suspension Bridge Co.

The Buffalo Railway owned the $2,860,000 stock of the Crosstown Street Ry. of Buffalo, and this passed to the International Railway Co.

On July 1 1902 the International Ry. Co. acquired by purchase the Niagara Falls Park & River Ry., the Clifton Suspension Bridge Co., the Lewiston Connect. Bridge Co. and Queenston Heights Bridge Co. This leaves the Crosstown St. Ry. Co. of Buffalo, the Electric City Ry., the Frontier Elec. Ry. and Inter. Ry. Co. as the only operating companies, and eventually (that is, as soon as the $1,000,000 Buffalo Ry. debentures secured by $2,000,000 stock of the Crosstown St. Ry. are retired) the Crosstown St. Ry. can also be merged, thus leaving the International *Railway* Co., the Frontier Elec. Ry. and the Electric City Ry. the sole operating companies and the International Traction Co. the holding company.

(1) Chicago City Railway.—An electric road.

ORGANIZATION.—Incorporated in Feb. 1859, and has extensive surface road privileges in the south division of Chicago. In June 1908 entered into a contract with the Commonwealth-Edison Co., by which the Chicago City Ry. agrees to buy all of its electric power from that company until June 1918. The railway has abandoned its producing plants but retains its distributing plants. V. 87, p. 1010.

New Ordinances and Franchises.—On Feb. 4 1907 the City Council passed ordinances providing for a settlement of the franchise question. These ordinances were approved at the city election on April 2 1907 and formally accepted by the company's board of directors on April 15 1907. Suit to set aside franchise was dismissed in April 1912. V. 94, p. 1118. An extended outline of these ordinances, one to the Chicago City Railway Co., and covering the lines operated by that company, and the other to the Chicago Rys. Co., and covering the lines of the former Chicago Union Traction Co. (now the Chicago Railways Co.), was given in V. 84, p. 1123. The value of the tangible and intangible property of the Chicago City Ry. at date of the ordinances was fixed at $21,000,000. The city or any company authorized by it is given the right on Feb. 1 or Aug. 1 of any year, on six months' notice, to purchase the entire property of the two systems, or either of them, at their value at date of ordinance, plus "the cost of rehabilitation and extensions, including fair allowances for construction, profit and brokerage." But if the properties are acquired for operation by a private corporation, for its own profit, the purchase price is to be increased 20%—barring the case of a private company which might be willing to turn over to the city all profits above 5% on the cost of the investment. The companies are limited during their operation to an interest return of 5% upon the agreed value plus the cost of rehabilitation and extensions. All net profits above this are to be divided on the basis of 55% to the city and 45% to the companies, but a deficit in any year is to be made good out of the profits of subsequent years. After April 15 1910 the companies are required to set aside 6% of the gross receipts for maintenance and repairs and an additional 8% of the gross receipts to cover renewals and depreciation. Whatever portion of the two funds is not used, remains in the funds and passes to the city or its licensee upon purchase. But if the two funds are not sufficient for the purposes named, the companies are obligated to supply additional funds.

Free transfers are required over all connecting lines within the city limits covered by the Chicago Railways Company, the Chicago City Railway and the Southern Street Railway (except territory bounded by Twelfth Street, south and main branches of Chicago River and Lake Michigan, until subways are in operation, when transfers will be given at all intersections in the subways), provided the passenger has paid a five-cent fare and is traveling in any one general direction. Certain extensions are provided, and the Chicago City Company agreed to construct in addition the equivalent of eight miles of single track and the Chicago Railways system the equivalent of twelve miles of single track, in each year after the third year. The companies also agree, upon demand of the city, to furnish funds not exceeding $5,000,000 in the aggregate for the construction of a central down-town subway to be built and owned by the city, two-fifths of the cost to be borne by the Chicago City Ry. and three-fifths by the Chicago Railways. Section 25 of Chicago City Ry. ordinance fixes the capital investment limitation of the company as follows: "The company shall not be required on account of any extensions or subways or on account of underground trolleys, or on account of any extensions of its street railways, other than the extension provided for in exhibit "A," and in Section 36 of this ordinance, and four (4) miles of double or eight (8) miles of single track per annum, as in Section 3 hereof provided, to increase its total capital investment to such an extent that the return thereon over and above the interest charge of 5% thereon by this ordinance authorized would be reduced to an inadequate or unreasonably small amount."

The franchises granted by the ordinances run until Feb. 1 1927. The city reserves the right at any time to commute a sum not exceeding the city's share of the net receipts for the previous year into a reduction of the rates of fare.

Calumet & South Chicago Operated.—Under an operating agreement entered into in 1908, operates the Calumet & South Chicago Ry. and will also direct the work of its rehabilitation.

Southern St. Ry. Operated.—Under ordinance which went into force April 1 1909, operates the Southern St. Ry. and will carry on work of the rehabilitation of that road.

On Jan. 29 1912 City Council passed an ordinance providing for the acquisition by Chicago City Ry. of city lines of the Chicago & Southern Trac. Co. V. 94, p. 349, 629. The latter was sold at foreclosure in Feb. 1912. The lines outside the city were taken over by the Chic. & Interurban Ry in the interest of the Hammond Whiting & East Chicago Ry.

(2) Calumet & South Chicago Ry.—Electric.

ORGANIZATION.—Is a consolidation formed in 1908 of the Calumet Electric Street Ry. and South Chicago City Ry. In accordance with the terms of ordinance passed by the City Council March 30 1908. Lines are located in the south division of the city of Chicago. The ordinance grants *franchises* until Feb. 1 1927 and provides that the city is to receive 55% of net receipts after allowing for operating expenses, taxes and depreciation and 5% on present value, together with amounts expended for improvements and extensions. Interchange of transfers with Chicago City Ry. by establishing four transfer zones is provided, but in three of these zones free transfers cannot be compelled unless net earnings for preceding year were equal to 5% on the investment and the company's share of the net earnings amounts to 1¼% additional. City may purchase property on Feb. 1 or Aug. 1 of any year upon six months' notice, for present value, which is fixed at $5,000,000 plus amount expended for improvements, additions and extensions, but only for municipal operation, where purchase is made prior to Feb. 1 1927. With an addition of 20% in price, city may also purchase for the purpose of turning property over to other parties (if purchased for Chicago City Ry. only 12% additional need be paid), but this additional sum need not be paid where these other parties agree to pay over to the city *all* of the profits above 5% on the purchase price. V. 86, p. 1223. On Jan. 31 1912 certified value of property and additions thereto was $8,914,567.

In Dec. '10 increased stock from $5,000,000 to $10,000,000. V. 91, p.1628.

Operating Agreement with Chicago City Railway Co.—On June 29 1908 Chicago City Council approved agreement by which Chicago City Ry. agrees to operate Calumet & South Chicago Ry. Co.'s street railway system, and to place in operation the zone system of transfers, as described above. The latter company agrees to pay actual cost of this operation, and joint costs are to be paid by both companies in proportion to gross receipts of each, with certain exceptions. In addition, Calumet & South Chicago Ry. will pay Chicago City Ry. ¼ of the actual saving in oper. exp. resulting from joint operation, such saving to be determined by a board of engineers. See V. 87, p. 224.

Receivership.—On Jan. 28 1908 Judge Grosscup appointed W. Irving Osborne, Chicago; D. B. Hanna, Vice-Pres. Canadian Northern Ry., Toronto, and H. A. Haugen, Pres. State Bank of Chicago, receivers. George G. Moore was subsequently substituted for Mr. Haugen. See V. 86, p. 284, 337, 1223. In Feb. 1911 W. O. Johnson (a director of the Western Trust Co., Chic.) was appointed as receiver by Judge Grosscup, the former receivers being retained as advisers. V. 92, p. 525. April 1908 Judge Grosscup authorized the Wisconsin corporation to issue $1,000,000 receivers' certificates to complete road (V. 86, p. 917, 1159, 1223). Interest due July 1 1908 on the $4,000,000 bonds of 1902 is in default; the interest due on $1,080,000 1st M. bonds of 1899, however, has been paid. Default also occurred on Wisconsin Division bonds July 1 1908. V. 87, p. 96. Sink. fund due July 1910 and 1911 on *Ry.* 1st M. of 1899 was not paid.

Foreclosure Suit.—In Nov. 1908 Wisconsin Div. bondholders' protective committee approved the action to foreclose the mtge. on the Wisconsin division and authorized the filing of a bill for similar action with regard to the Illinois division. In Dec. 1908 Judge Grosscup entered an order consolidating the various foreclosure suits. V. 87, p. 1237, 1477, 1604. The consolidated bill sought to establish and foreclose an equitable lien in favor of all the holders of Wisconsin bonds against the Illinois property, on the ground that some $2,000,000 of the proceeds of these bonds were used for the benefit of the Illinois portion of the line. V. 87, p. 1532, 1663. This threatened to displace the Illinois division bonds' first lien on the Illinois property, and a protective committee of Illinois division bonds has been formed. V. 87, p. 1604, 1663; V. 88, p. 374. In 1911, however, a committee of Canadian holders of Wisconsin Div. bonds purchased practically all the Illinois Division bonds. Decree of foreclosure under the Ill. Div. mtge. was signed by Judge Grosscup in Oct. 1911 (V. 93, p. 939), but on Nov. 24 1911 suit referred back to Master (V. 93, p. 1461), and is still pending.

On July 28 1911 Judge Grosscup maintained that the entire $10,000,000 of Wisc. Div. bonds had been validly issued. V. 93, p. 345.

The new reorganization committee (V. 94, p. 206) composed of representatives of both the Wisconsin and Illinois div. bondholders in Jan. 1912 proposed a plan of reorganization calling for the formation of a new company with $6,000,000 stock, $10,000,000 1st M. 5% bonds (present issue $4,500,000), covering entire property, $4,500,000 1st 4% non-cum. income bonds (a 2d mtge. on Ill. div.) and $6,000,000 2d non-cum. incomes (a 2d mtge. on the 16 miles of Wisc. div. and 3d mtge. on Ill. div.). Depositaries, Chic. Title & Trust Co., Chic., and Nat. Trust Co., Ltd., Toronto. See V. 94, p. 630.

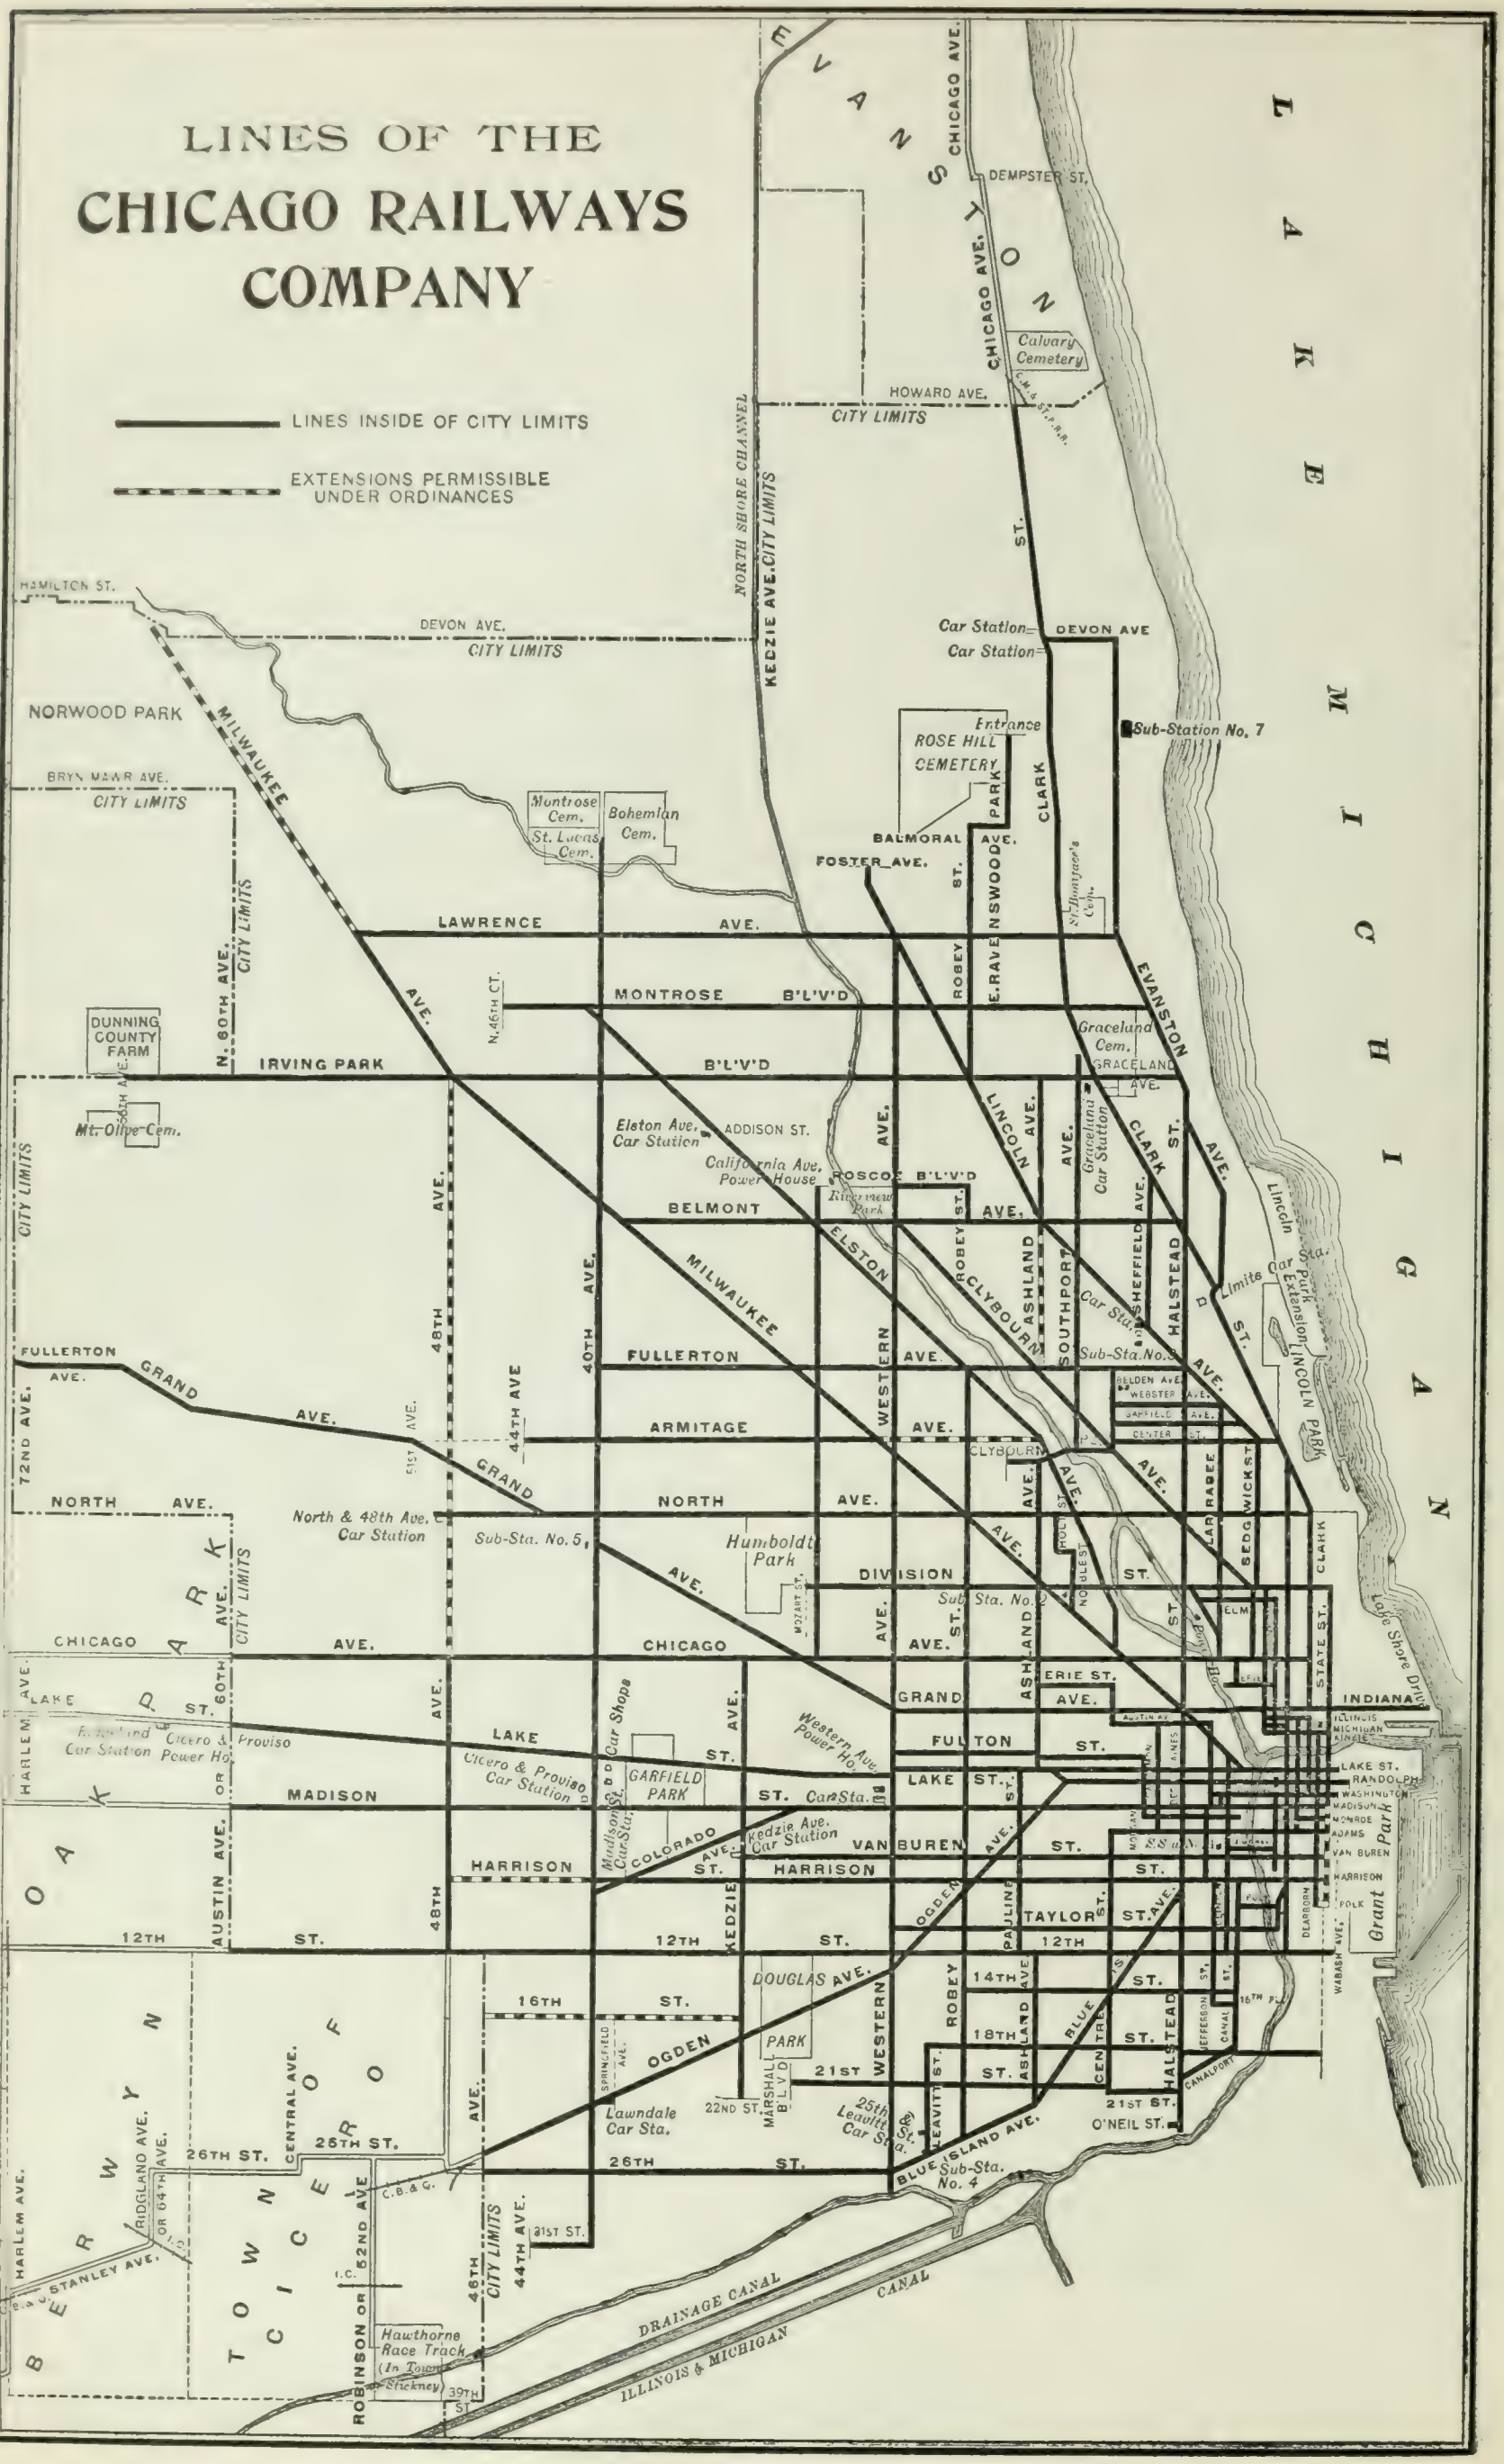
Proposition to Unite Surface and Elevated Lines.—On March 27 1912, at the request of Henry A. Blair, representing Chicago Rys., I. M. Cobe, Chicago City & Conn. Rys., and Samuel Insull, Chicago Elev. Rys., the transportation committee of the City Council adopted a resolution providing that the committee shall at once proceed to draft an ordinance looking to the merger of the surface and elevated lines. V. 94, p. 982; V. 93, p. 1190, 1599.

ORGANIZATION.—Incorporated in Illinois in Oct. 1903 and on Jan. 25 1908 acquired at foreclosure sale the property of the old Chicago Union Traction, comprising the lines of the North and West Chicago Street RR. The purchase was made under a modified plan of reorganization and readjustment dated Oct. 15 1907 and outlined in V. 85, p. 1269; see also p. 1576

Notice to Non-Assenting Holders.—In April 1912 notice was given that after June 15 1912 no additional amounts of stock (or assessments thereon), bonds or other obligations affected by the reorganization plan of Oct. 15 1907, will be received on behalf of the railways Co. V. 94, p. 1185.

Franchises.—On Feb. 5 1907 the City Council passed ordinances providing for a settlement of the relations between the city and the street railway companies. V. 84, p. 338, 390. The *franchises* granted by the ordinances expire Feb. 11 1927 and were approved at the popular election held April 2 1907. On Oct. 10 1910 supplemental ordinance was passed expiring Feb. 1927, covering lines of Chic. Consol. Trac. properties. V. 91, p. 1025.



In the remarks concerning the Chicago City Ry. on a preceding page of this publication will be found a brief summary of the main terms, requirements and conditions of these ordinances. A very extended outline of the same was printed in the "Chronicle" of May 11 1907, pages 1123, 1124 and 1125, to which the reader is referred for detailed information.

The ordinance for the Chicago Rys. Co. provides that the valuation of the properties acquired shall be deemed and considered to be $29,000,000 (the value fixed by a board of expert engineers acting for the city) plus $1,779,875 for expenditures from the date of the valuation on June 30 1906 to Feb. 1 1907, making total valuation of properties as recognized by ordinance $30,779,875 as of Feb. 1 1907. With the further expenditures already made and upon the expenditure of proceeds of all bonds now outstanding, the valuation of road, equipment and franchises will be not less than $76,863,605. V. 87, p. 677; V. 88, p. 504.

All expenditures for reconstruction and extensions are being made under the direct supervision of a board of supervising engineers headed by Mr. Bion J. Arnold, and the company is required, under conservative restrictions, to advance moneys for the construction of subways by the city. The expenditures for reconstruction and extensions, including any contributions for subways, after Feb. 1 1907 are to be added to the value of the properties recognized by the ordinance, together with 5% of such expenditures for brokerage. As compensation for its services in construction, the company will receive an additional 10% of all expenditures for reconstruction and extensions, exclusive of amounts contributed for subways. The company agreed to lower and reconstruct the tunnels under the Chicago River at Washington, La Salle and Van Buren streets. The ordinance requires through routing over certain lines of the Chicago City Ry. Co. and the exchange of transfers with that company. The lines of the Chicago City Ry. Co. cover what is known as the South Side of Chicago, and the lines of the Chicago Rwys. Co. the North and West Sides.

Right to Purchase by City.—Under the terms of the franchise, the company agreed to waive all rights under previous grants, and granted the city an option to purchase all of its property for municipal operation at any time prior to the expiration of the 20-year franchise granted the company by the ordinance. The price to be paid by the city to be $30,779,875, the valuation of the properties February 1 1907, as above mentioned, plus all expenditures after that date for reconstruction, extensions and additions to the properties, including any amounts advanced to the city for construction of subways in the downtown business district. In case the property shall not be purchased, as above stated, prior to 1927, the expiration of the present franchise, the city covenants that it will not then grant a franchise to any other corporation for the operation of a competing system in the company's territory, unless such other corporation shall purchase the property of the company at said price. The city also has the option of requiring the company to sell its property to any other licensee corporation of the city, or to purchase the property itself for municipal ownership (with no requirement as to municipal operation) at any time during the life of the franchise; but in case of such purchase by the city or a licensee, the price to be paid shall be 20% more than the price above mentioned; but the licensee shall not be required to pay the additional 20% if it shall agree to pay over to the city all profits in excess of 5% on the investment. In any event (1) the purchase price must be paid in cash and deposited in national or State banks, each of which must have a capital and surplus of at least $1,000,000, and must be approved by the company, and the first mortgage bonds of the company will attach to such cash as a first lien in the event of such purchase; or (2) such purchase (if made within said 20 years) must be consummated expressly subject to the lien of the 1st mtg. bonds, but if made at the expiration of said 20 years, the amount thereof must also be so paid in cash.

Compensation to City.—The company is entitled to a straight 5-cent fare, with universal transfers. In turn provision is made for special compensation to the City of Chicago, but this compensation is payable only out of the surplus earnings of the company after paying or providing for all operating expenses, including the charges for maintenance and depreciation prescribed in the ordinance, and 5% upon the valuation of the company's property at which it may be purchased by the city for municipal operation, as above stated. Of the surplus earnings so remaining, the City of Chicago receives 55% and the company 45%.

Co. and its eight underlying companies on Nov. 30 1910 to Andrew Cooke, and the sale by the latter of all properties *within* the city limits to the Chicago Railways Co. See reorganization plan, V. 90, p. 1613; V. 91, p. 37. The lines *outside* the city were acquired by the County Traction Co., which has no connection, either corporate or operating, with the Chicago Rys. On Nov. 1 1910 a deposit agreement was entered into by the holders of the securities of Chic. Consol. Trac. and its subsidiaries, providing for the exchange of said securities for Chic. Rys. Co. Purchase Money 4% to 5% bonds and Adjustment Income 4% bonds, both dated Jan. 1 1911 and maturing Feb. 1 1927. For description of bonds and terms of exchange, see V. 91, p. 1384, and compare V. 90, p. 1613; V. 91, p. 214.

CLEVELAND, OHIO.

CLEVELAND RAILWAY CO.—

Company Resumes Possession.—The receivers of the *Municipal Traction Co.* having been discharged and the debts of that company provided for, the Cleveland Railway Co. on March 1 1910 resumed possession of its lines under ordinance (see below) of Dec. 1909. V. 90, p. 626. The lease to the *Municipal Traction Co.* was canceled of record.

New Franchise Ordinance.—The "security" franchise ordinance granted April 27 1908 not being ratified (V. 87, p. 1089) and the Schmidt ordinance being defeated at a referendum election Aug. 3 1909 (V. 89, p. 348), a new franchise ordinance (V. 89, p. 1667) was passed in Dec. 1909 by the City Council, and accepted by the railway co., based upon the valuation of the co's property as fixed by Judge Tayler. The ordinance grants franchises to operate on existing roads to May 1 1934, subject to the right of the city to purchase the property. In case the city shall purchase and take over the property of the company, as is in this ordinance provided, then it shall pay for the same the capital value of said property, as fixed by Sec. 16, plus 10% thereof, the city at the time of such purchase assuming and agreeing to pay, in addition thereto, all the obligations, indebtedness and liabilities of said company, and all liens other than bonded indebtedness upon its property then existing, which bonded indebtedness the city shall, at the time of any such purchase, provide for by assumption if the law authorizing such purchase permits, or by payment if the law so authorizes at the time and under the provisions of the bonds they are callable, or by taking the property subject thereto if that be the mode provided by law for dealing with such existing bonded indebtedness in making such purchase. On and after Jan. 1 1918 the city may designate a purchaser or licensee in place of the city on payment of same amount. On Feb. 17 1910 at a referendum election the electors ratified the ordinance (V. 89, p. 1667; V. 90, p. 167, 502). On July 10 1911 City Council passed an ordinance amending that of Dec. 1909 providing, among other things, for additions to capital as required and particularly for the immediate expenditure of $2,500,000 for impts., extens. and equipt. The new ordinance also provides that the right of the city to propose exten., betterm'ts or impts. shall terminate whenever the unexpired term or any renewal thereof is less than 15 years, and also that during such period the company may operate at the maximum rate of fare and fix the schedules subject to the police power of the city. Provision is also made for the use of surplus earnings during this 15-yr. period, either in the payment of floating debt or the creation of a s. f. to purchase securities and reduce capital value. At a referendum election on Nov. 7 1911, the electors ratified the ordinance amending that of Dec. 1909.

Valuation.—Judge Tayler placed the value of the physical property of the Cleveland Elec. Ry. Co. at $17,511,856 and the franchise value at $3,615,844; total, $21,127,700; agreed value of property purchased from Forest City Ry. Co., $1,805,600; total valuation, $22,933,300. To this is added $1,158,300 interest or rental accrued, making the entire "capital value" $24,091,600. The bonded debt of $8,128,000 and floating indebtedness as of Jan. 1 1908, $1,288,000, or $9,416,000 in all, is deducted, leaving $14,675,600. The valuation is to be increased for the purpose of fixing the price at which the city or its nominee may purchase the property by the amount of future requirements, including cost of new pay-as-you-enter cars and 75% of the cost of remodeling old cars as pay-as-you-enter cars.

Fares.—An experimental fare of 3c., with 1c. extra for transfers without rebate, had to be tried to see if it would yield the auth. int. on capital val.—5% on bonds, 6% on floating debt and capital stock. On June 1 1911 authorities ordered the fare reduced to 3c. cash fare, 1c. extra for transfer, but the latter to be rebated when taken up, which in April 1912 was still in effect. V. 92, p. 1498; V. 93, p. 1190. Under the ordinance, fare to East Cleveland is same as city fare. Fare for other suburbs, 5 cents, or eleven tickets for 50 cents, according to contracts. The company's schedules and routes are subject to the supervision of the city and the rates of fare to be fixed so as to net a return of interest as stated above on the valuation of the property and permit of the maintenance at all times of a so-called interest fund of at least $500,000. V. 89, p. 1667. Maximum fare allowed is 4c. for a single fare, or 7 tickets for a quarter, with 1c. for transfer without rebate.

ORGANIZATION.—In 1908 changed name from the Cleveland Electric Railway Co. (which had in 1903 taken over the Cleveland City Ry.) to Cleveland Railway Co., and authorized new stock to the amount of $35,000,000. The old stock of Cleveland Electric Ry. was given a valuation of $55 per share, or $12,870,000 (the stock having formerly been $23,400,000), which valuation was agreed upon after extended conference, and which was paid in new stock issued by Cleveland Railway at a par ($100) valuation. The Forest City Ry. (which had first absorbed the Low Fare Ry.) was purchased for $1,805,600 stock of Cleveland Ry., the shares of the Forest City Ry. being accepted at their par ($100) value.

On March 10 1910 stockholders were offered the right to subscribe for 10% of new stock at par. V. 90, p. 771. $399,000 of new stock was taken.

On Jan. 26 1911 stockholders auth. a new $35,000,000 mtge. V. 92, p. 260.

On June 18 1910 motormen and conductors were awarded an increase in wages of 4 cents an hour, effective June 15 1910. V. 90, p. 1675.

Owns entire capital stock ($2,000,000) of the Detroit & Port Huron Shore Line.

In Aug. 1901 purchased 2,970 shares (all) of the stock of the Sandwich Windsor & Amherstburg Ry.; 180 shares (all) of the stock of the City Electric Ry. and the People's Electric Light plant of Windsor, Ont.

In Feb. 1906 issued $1,000,000 notes for the purpose of acquiring the entire stock of the Detroit Monroe & Toledo Short Line Ry. V. 82, p. 392. These were paid off March 1 1909. V. 88, p. 563.

In Jan. 1907 company purchased control of the Detroit Ypsilanti Ann Arbor & Jackson Ry., the Jackson Ann Arbor & Detroit Ry. and the Detroit Plymouth & Northville Ry., and reorganized them under the name of Detroit Jackson & Chicago Ry. V. 84, p. 450.

The United States Supreme Court on March 3 1902 decided that the ordinance of 1889 compelling the Citizens' Street Ry. to sell 8 tickets for a quarter was invalid. (See V. 74, p. 528.)

On Sept. 28 1910 Mich. Supreme Court refused to grant a re-hearing from its decision that company must sell workingmen's tickets at rate of 8 for a quarter within specified hours and within city limits as extended. V. 91, p. 870.

In July 1906 a proposed ordinance extending the company's franchises until Dec. 4 1924 was submitted to the City Council. See V. 83, p. 271, 1170. V. 84, p. 338. Ordinance, however, fell through. Question of valuation of company's property in connection with proposed new franchise was in April 1910 submitted to a board of arbitration. V. 90, p. 976, 1101. Up to Apr. 1912 valuation had not been fixed.

On Nov. 13 1909 company decided to pay under protest the occupation tax of $300 a day called for by Hally resolution of Oct. 26 1909. The tax is for privilege, after Nov. 14 1909, of operating cars in streets where franchises have expired. V. 89, p. 1347. On July 8 1911 Wayne Circuit Court decided in favor of the city suit brought by city on Sept. 15 1910 to compel the company to pay $200 per day occupation tax, in addition to the $300 above. V. 93, p. 163. The entry of the decree was withheld in order that the Common Council might be consulted as to a modification or suspension of the ordinance or decree.

On May 1 1907 the Supreme Court of Michigan decided that the city of Detroit could not lay street railway tracks through its Department of Public Works (as attempted under an ordinance of the City Council passed in 1905), to be leased, as supposed, to an operating company. V. 84, p. 1052.

On April 25 1907 Judge Swan in the U. S. Court at Detroit granted an injunction (which July 24 1907 was made permanent) restraining the city from enforcing an ordinance seeking to compel the company to give 20 seconds' service on some of its lines. V. 84, p. 1052.

On July 23 1907 Judge Swan granted an injunction restraining the city from enacting an ordinance which provided that company can use patches of line on which franchises are said to have expired on condition only that 5 tickets be sold for 15 cents over entire lines or streets on which patches lie. V. 85, p. 345.

In April 1911 an agreement was entered into between the company and Mayor Thompson (ratified by City Council), whereby the company was permitted to build at once extensions and double-track its lines. Agreement provides that at any time city may purchase any of the extensions. V. 92, p. 956.

Proposed Municipal Purchase.—On Jan. 15 1912 the Mich. Supreme Court handed down a decision holding that the city could not legally vote at proposed election Jan. 23 1912 upon charter amendment to provide for municipal ownership of street railways. See V. 94, p. 207, 123. A similar decision was handed down by the same court on Feb. 1 1911. V.92,p.322.

Ordinance Defeated.—At referendum election on Jan. 23 1912, the proposed ordinance (V. 93, p. 1190) passed by the Council Jan. 16 1912, looking to the settlement of all differences between the city and the company, was defeated. V. 94, p. 278.

KANSAS CITY, MO.

KANSAS CITY RAILWAY & LIGHT CO.

ORGANIZATION.—Incorporated in 1903 in New Jersey and acquired the entire outstanding capital stock of the Metropolitan Street Railway of Kansas City and the Kansas City Electric Light Co. (Plan in V 76 p. 1143.) Through Metropolitan Street Railway stock, the Kansas City Railway & Light Co acquired the stock of the Central Electric Railway Co. and practically all of the stock of the Kansas City Elevated Railway Co., and, through the stock of the Kansas City Electric Light Co., it acquired the stock of the Edison Electric Light & Power Co. (of Kansas City), the Consolidated Electric Light & Power Co., the Standard Electric Light Co. and the Kansas City Electrical Wire Subway Company—except, of course, in each instance the qualification shares held by directors Controls all the street railway, electric-lighting and power business in cities of Kansas City, Mo., and Kansas City, Kan.

Owns entire stock of the Kansas City & Westport Belt Ry. (a steam road, since converted to electricity), which on June 16 1906 absorbed the interurban South Side Ry., both having perpetual charters and being organized under the General Railroad Law of Missouri; also acquired capital stock of the Kansas City Heating Co., having a franchise which expires in 1935. This last distributes steam in the business centre of the city.

Street Railway Franchises.—The franchises of the railway lines in Kansas City, Mo., in which city the greater part of system is located, were revised and confirmed in July 1902 and franchises granted for extensions and valuable trackage rights in newly populated portions of the shopping and delivery districts, all of which franchises are operative to the uniform date of June 1 1925. The railway franchises in Kansas City, Kan., in Dec. 1902 were renewed, and authority was given to build extensions, all for the maximum period for which the city had power to grant the same, namely to Dec. 19 1922. By the terms of the franchises the rate of fare is definitely fixed at 5 cents, transfer privileges are provided, and the taxes practically limited to 8% of the annual gross receipts.

Electric Light Franchise.—The franchise of the Kansas City Electric Light Co. is perpetual.

Receivership.—On June 3 1911 Federal Judge W. C. Hook appointed Robt. J. Dunham (Ch. of K. C. Ry. & Lt. board of directors) of Chic. and Ford F. Harvey of Kansas City receivers for the Metropolitan St. Ry. (V. 92, p. 1564.) It is stated that receivers were appointed at the instance of bankers to conserve the property until satisfactory franchise relations with the city can be effected. No defaults have occurred. V. 93, p. 1191. See formal statement by R. J. Dunham and bankers' circular in V. 92, p. 1565. A protective committee has been formed calling for deposits of Metrop. bonds. V. 92, p. 1565. On June 15 1911 Judge Hook in U. S. Circuit Court authorized the receivers to pay prin. & int. of obligations of Metrop. St. Ry. maturing in 1911 to the amount of $984,640 from earnings of company, provided it would not unduly hamper operation of road. See V. 92, p. 1701. The city in Sept. 1911 having petitioned Judge Hook to require company to live up to its franchise obligations, Special Master Brumbach on Nov. 24 1911 reported that $8,274,800 would be required, provided it should be determined by law that the city has the right to enforce such requirements. See V. 93, p. 1532.

MINNEAPOLIS, MINN.

TWIN CITY RAPID TRANSIT.—An electric road.

ORGANIZATION.—Organized under the laws of the State of New Jersey June 3 1891 and by virtue of its stock ownership of the underlying companies (to wit, The Minneapolis Street Railway Co., The St. Paul City Railway Co., the Minneapolis Lyndale & Minnetonka Railway Co. and the Minneapolis & St. Paul Suburban) controls the entire street railway system of Minneapolis, St. Paul, Stillwater, and lines to Excelsior, Tonka Bay and Deephaven at Lake Minnetonka. In 1906 absorbed the North Side Street Ry. (Robbinsdale line) and the St. Louis Park line; V. 83, p. 1472. In 1905 articles of incorporation were amended so as to make the charter perpetual. V. 80, p. 1914.

Franchise and Fares.—Mayor Haynes of Minneapolis on Feb. 18 1907 signed an ordinance requiring street railways to sell six fares for 25 cents. V. 84, p. 451, 509. On Aug. 24 1907, however, Judge Lochren of the U. S. Circuit Court granted a permanent injunction against enforcing the ordinance (see V. 85, p. 532). On Jan. 3 1910 U. S. Supreme Court affirmed the decision of Judge Lochren. This decision sustains the company's claim to a 50-year franchise from July 1 1873, with the right to charge 5-cent fares. V. 90, p. 111.

Settlement with City of St. Paul.—For decision as to right to build new lines in St. Paul, see V. 79, p. 271, 2087, and for settlement with City of St Paul by which the city relinquishes its right of appeal from this decision and the company agrees to pay into the city treasury a gross earnings tax of 6%, see V. 80, p. 1175.

Decisions.—On April 21 1911 Judge Willard in U. S. Dist. Court at Minneapolis denied the application (V. 92, p. 1637) to restrain the enforcement of an ordinance directing the construction of 9½ miles of extensions.

New Subsidiaries.—Because of a decision of the Supreme Court holding that suburban lines, as railways, are amenable to the Minnesota 4% gross earnings tax, it was decided in Mch. 1910 to incorporate the Minneapolis & St. Paul Suburban RR. ($1,000,000 stock, increased to $3,000,000 in Jan. 1911; debt limit was also increased to $10,000,000; V. 92, p. 187), the Minnetonka & White Bear Navigation Co. ($250,000 stock) and the Rapid Transit Real Estate Corp., $15,000 stock, and to rearrange matters so that the suburban lines, the steamer lines and the hotels, parks, &c., of the company might be handled separately for taxation and accounting purposes. V. 90, p. 850.

NEW HAVEN, CONN.

NEW YORK NEW HAVEN & HARTFORD RY. (Trolley lines).

The New York New Haven & Hartford's interests in trolley lines is very extensive, and control originally was held through three organizations, the Connecticut lines having been comprised in the Consolidated Ry. Co., now merged in the New Haven, the Massachusetts street ry. properties (except as noted below) being held by the New Eng. Invest. & Secur. Co. and the Rhode Island lines by the Providence Securities Co., which latter has since passed to the New England Navigation Co. But, owing to the adverse Court decision noted below, the New Haven company severed direct connection with the Massachusetts trolley lines. In a statement made to the Massachusetts Legislature in Feb. 1909 (V. 88, p. 506) it was announced that the New England Navigation Co. had acquired by purchase the common shares actually issued of the New England Investment & Security Co. and that the indebtedness of the latter was also held by the Navigation Co. Furthermore, that the latter had sold the shares of the New England Investment & Security Co. so acquired to individuals for cash. In the New Haven annual report for 1908-09 Pres. Mellen stated that the stocks and indebtedness of the Worcester & Webster Street Ry. and of the Webster & Dudley Street Ry. had also been disposed of, "thus closing out the last financial interest of your company in Massachusetts street railways."

Control of Trolley Tracks Attacked.—The Supreme Judicial Court on May 8 1908 decided that the New York New Haven & Hartford RR., in securing control of Massachusetts street railways, was transgressing the law (see V. 86, p. 1225, 1285), and on June 23 1908 Court issued its decree prohibiting New Haven road from exercising any ownership over same directly or indirectly after July 1 1909. V. 86, p. 1590. On March 2 1909 full bench of Mass. Supreme Court affirmed this decree. V. 88, p. 625. On Jan. 29 1912 Attorney-Gen. Swift of Mass. reported to the Senate that in his opinion the company had complied with the decree. V. 94, p. 351. On May 22 1908 the Federal Government began an action against the New York New Haven & Hartford, asserting that the acquisition of the trolley lines in the various States, as well as the Boston & Maine, was in violation of the Sherman Anti-Trust Law (V. 86, p. 1285), but in June 1909 Attorney-General Wickersham announced the abandonment of the suit. V. 88, p. 1621.

On Dec. 8 1911, however, it being thought that public sentiment was favorable to the measure, the New England Investment & Security Co., with the approval of the N. Y. N. H. & H. RR., filed a petition asking for an Act permitting either (1) the New Haven to purchase outright the assets of the Security Co. or (2) the formation of a new company to take over the various properties of the New Eng. Inv. & Sec. Co., the New Haven to own stock, bonds and other securities issued by corporation so organized, and to guar. divs. and liquidation value of such stock and the prin. and int. on such bonds or other obligations. See V. 93, p. 1669, 1788. On the same date another petition was filed, signed by the Selectmen of various towns in Western Mass., asking for legislation permitting the Berkshire St. Ry. to buy or consolidate with the Springfield St. Ry. on condition that the two systems be connected. V. 93, p. 1669. The former road had previously been purchased in July 1910 by the N. Y. N. H. & H. from the New Eng. Invest. & Secur. under an Act of Mass. Legislature passed in June 1910. V. 90, p. 1612; V. 91, p. 154. In Jan. 1912 a bill was introduced in Mass. Legislature authorizing the N. Y. N. H. & H. to own all the com. stock of a new company (Worcester Springfield & Berkshire St. Ry.), which is to take over, consolidate and operate all street railways at present controlled by New Eng. Invest. & Sec. Co. and Berkshire St. Ry. In April 1912 the foregoing bill was reported by committee on street railways of Mass. House. See V. 94, p. 208, and under New Eng. Invest. & Secur. Co. on subsequent page.

The operation of the New Haven's trolley properties is now vested in the following companies:

Berkshire Street Ry.	N. Y. Westch. & Bost. (under const.)
Connecticut Company.	Rhode Island Co.
Hoosick Falls RR. Co.	Vermont Company.
New York & Stamford Ry.	Westchester Street Ry.

CONNECTICUT COMPANY.

This is the company which operates the trolley lines in Connecticut controlled by the N. Y. N. H. & H. and which formerly were comprised in the Consolidated Railway Co. The latter company, the whole of whose $10,000,000 stock was owned by the N. Y. N. H. & H. RR. Co., was on May 31 1907 (after it had previously taken over the New Eng. Nav. Co. at a valuation of $20,000,000 and increased its stock to $30,000,000 for the purpose) consolidated with and merged into the New York New Haven & Hartford RR. The charter of the New Haven Co. was amended by Act of the Connecticut Legislature, approved March 26 1907, so as to permit the merger, and new stock of the New Haven Co. was issued, share for share, to represent the $30,000,000 stock of the Consolidated Railway Co.; V. 84, p. 1052, 1308. It was distinctly provided that the rights, powers and franchises of both companies should be vested in the enlarged company.

ORGANIZATION.—Incorporated in Connecticut. Stock, $40,000,000 all owned by N. Y. N. H. & H. June 1 1907 began operating the lines comprising the Consolidated Ry. (merged in 1907 in the N. Y. N. H. & H.) Feb. 28 1910 purchased substantially all the various street railway properties of the N. Y. N. H. & H.

On Mch. 1 1910 all the gas, water and electric-light properties formerly operated by the Connecticut Co. were transferred to the Housatonic Pow. Co., which company increased its stock from $1,000,000 to $3,000,000, to pay for the acquisitions. On Jan. 1 1912, however, the Housatonic Pow. Co. was taken over under a sub-lease for 994 years dated Oct. 1 1911, by the United Elec. Lt. & Water Co. V. 94, p. 71; V. 93, p. 1669.

Re-financing.—In Sept. 1910 arrangements were made for re-financing the Connecticut Co., whereby the N. Y. N. H. & H. will take care of its bonds as they mature, thus ultimately leaving the Connecticut Co. free from debt. V. 91, p. 870.

Bonds.—The Consolidated Ry. debentures are not subject to call. All the debentures have printed on their face the statement that if a mortgage is made on any or all of the company's property which was owned on Jan. 1 1905, except to renew existing mortgages, the debentures shall participate in the security of such mortgage. The debentures due in 1930 bear 3% interest from Feb. 1 1905 for first 5 years, 3½ % for next 5 years, and 4% for following 15 years, and were issued to pay for acquiring the Berkshire Street Ry. (V. 80, p. 471), which company was subsequently acquired by the New England Investment & Security Co., then in turn re-acquired by the N. Y. N. H. & H. The $3,500,000 debentures due April 1 1955 were issued to acquire the Hartford Street Ry. The $10,000,000 debentures of Jan. 1906 were issued to the N. Y. N. H. & Hartford for advances.

The Winchester Avenue bonds are joint obligations of the Winchester Avenue RR. Co. and the New Haven & West Haven, and cover all property owned or to be hereafter acquired under the charters. Of the Worcester & Connecticut Eastern bonds, no more will be issued. A *sinking fund* on these bonds commenced in 1908 of not to exceed 1% of bonds outstanding. Bonds can not be called, but may be bought on a 3¾% basis or better, and kept alive for sinking fund. See V. 75, p. 1204. Of the Montville Street Ry. 1st mtge. gold bonds the balance unissued can only be issued for 66⅔% of actual certified cost of improvements or additions to property. Original mortgage of the Montville Street Ry. provided that bonds might be called in 1905 at 105, but through a supplemental mortgage this redemption clause was eliminated, so bonds are not now subject to call.

NEW ENGLAND INVESTMENT & SECURITY CO.

ORGANIZATION.—Is a voluntary association and was organized on June 25 1906 to take over the street railway properties in Massachusetts formerly controlled by The Consolidated Railway Co. V. 83, p. 492.

New Haven Road Divests Itself of Control.—In Feb. 1909 the N. Y. N. H. & H. announced to the Massachusetts Legislature (V. 88, p. 506) that it had disposed of all of its interest in the common shares of the N. E. Inv. & Sec. Co. for cash to individuals and that it no longer had any interest in the same, direct or indirect, see remarks concerning the matter under N. Y. N. H. & H. on a preceding page and V. 88, p. 945. In July 1909 Pres. Mellen of the N. Y. N. H. & H. wrote C. E. Mann, Clerk of Mass. RR. Comm., "this company is no longer directly or indirectly concerned in the control of any street railways in Massachusetts," thus complying with the Court decree that it must divest itself of all its holdings in street railways in Massachusetts by July 1 1909. See V 89, p. 163.

On July 1 1910 Mass. RR. Comm., having auth. the N. Y. N. H. & H. to purchase control of the Berkshire Street Ry., the N. E. Inv. & Sec. Co.'s interest in the same was transferred to that co. V. 90, p. 1612. V. 91, p. 157.

The company on Dec. 8 1911, with the approval of the N. Y. N. H. & H., filed a petition asking for an Act that will authorize the New Haven road either to purchase outright the securities of the Security Co., or to own control and guar. securities of a merger company to be organized to take over the various properties. In Jan. 1912 a bill (see V. 94, p. 207) was introduced in Mass. Legislature authorizing trustees of the New England Invest. & Secur. Co. to form a new corporation—Worcester Springfield & Berkshire Street Ry. Co.—to take over, consolidate and operate all street railways controlled by New England Invest. & Secur. Co. (incl. those controlled by Springfield Ry. and Worc. Rys. & Invest. Co.) and Berkshire St. Ry. The bill was reported in April 1912 by the Committee on Street Railways of the Massachusetts House. Cost of Reproduction.—The cost to reproduce the property, according to the appraisal of Ford, Bacon & Davis of N. Y., and real estate experts, is $105,123,000, exclusive of (*a*) certain reorgan. assets, value estimated at $5,000,000; (*b*) net invest. in superseded property, representing an actual outlay of $13,355,645, and (*c*) any "going concern" value, special value of existing franchises or other items of substantial importance in the production of the system. The total outstanding securities as provided in the plan will be $97,655,500.

Franchises.—All franchises are stated to be perpetual.

Transfers.—On Dec. 5 1911 the Public Service Comm. issued a formal order restoring on Jan. 1 1912 free transfers at 151 points. The order permits passengers to transfer from cars of one company to those of another and back again, if they desire, to the cars of the first, but not to the cars of a third company. However, when a passenger has returned on a free transfer to the cars of the company to which he paid his fare, he will be entitled to any further free transfers that that company has been accustomed to grant. V. 93, p. 1600. An appeal to the courts has been taken. On April 19 1912 Gov. Dix vetoed the transfer bill passed by the Legislature (providing for the foregoing transfers) on the ground that the Public Service Commission has full power to act in the matter. V. 94, p. 1186.

Suit to Forfeit Franchises.—Attorney-Gen. Carmody in Dec. 1911 began several suits to forfeit franchises and remove tracks of the old Metropolitan St. Ry. on a number of streets on the ground that tracks have not been kept in repair and are a menace to public safety. V. 93, p. 1600.

Brooklyn Bridge Connection.—Cars of the old Metropolitan lines began to run across the Williamsburgh Bridge in Jan. 1905.

PHILADELPHIA RAPID TRANSIT.—Controlled by the Stotesbury interests.

Incorporated in Pennsylvania on May 1 1902 to take over under lease the Union Traction Co. for 999 years from July 1 1902, and to acquire and hold shares of other corporations. (For terms of lease, see Union Traction below.) The Rapid Transit Co. acquired numerous franchises for new roads obtained by the Mack-Foerderer syndicate in 1901. In June 1903 the Market St. Elev. Pass. Ry., with $5,600,000 authorized capital stock, was formed to absorb a number of these franchises. V. 76, p. 1301. In June 1903 the Rapid Transit Co. obtained from the Philadelphia City Councils other valuable franchises for new lines. In April 1906, however, an agreement was entered into with the city relinquishing nearly all the rights to the franchises of 1901 and 1903, and the whole matter of the company's franchise rights was readjusted on a new basis. See V. 82, p. 693, 870.

Subway has been built in Market St. from 23d St. to Delaware Ave.; elevated structure on Market St. west of the Schuylkill River, and on Delaware Ave. from Market St. to South St. V. 74, p. 528, 989; V. 76, p. 1301; V. 81, p. 265. In March 1907 began operating on that portion of the elevated from the Schuylkill River west to the Upper Darby terminal station, a distance of about 4 miles. V. 84. p. 571. On Aug. 3 1908 the entire subway from 2d St. to 23d and Market St. was placed in operation, thus completing line through to 69th St. V. 87, p. 347. On Oct. 6 1908 elevated line on Delaware Ave. to South St. Station was placed in operation, completing entire line. V. 87, p. 936.

In July 1902 acquired all the stock of the Doylestown & Willow Grove Ry. Co. Also owns entire stock of the Philadelphia & Willow Grove Street Ry. Co. and entire stock ($10,000) of the Real Estate Holding Co., which owns property of an assessed value of $463,850.

On July 1 1906 the Phila. Morton & Swarthmore Ry. and the Media Middletown Aston & Chester Elec. Ry. were consolidated, forming the Darby Media & Chester Ry. The new company, embracing 25 miles of track, was thereupon leased to the Phila. Rapid Transit Co. for 999 years, rental being $8,500 for first year, $17,000 for second and third years, $25,500 for fourth year, $34,000 for fifth year and $42,500 for sixth year and thereafter.

With Aug. 1 1906 the Rapid Transit Co. began to sell passengers 6 tickets for 25 cents. V. 82, p. 1439. In Oct. 1908 company sought to make these tickets non transferable and to restrict their use to the purchaser (V. 87, p. 936), but in Nov. 1908 abandoned all restrictions again. V. 87, p. 1301. On May 18 1908 company put into force a rule allowing transfers only upon payment of full 5-cent cash fare. V. 86, p. 1160. On Jan. 27 1909 Common Pleas Court No. 2 sustained company in this rule in a test suit brought by city. V. 88, p. 296. This in turn was affirmed by the Pennsylvania Supreme Court on April 26 1909. V. 88, p. 1093, 1129. On May 24 1910 Pennsylvania Supreme Court affirmed the decision of Common Pleas Court No. 2 in July 1909 (V. 89, p. 225, 287), declining to compel the restoration of a 6-for-a-quarter strip tickets (which were discontinued in May 1909; V. 88, p. 1165, 1197), on the ground that the sale of strip tickets is not a change in rate of fare, but a change of a detail in management which the company is not bound by law or contract of July 1907 with city to make permanent. V. 89, p. 225, 287. For reasons against restoring strip tickets, see V. 89, p. 163.

Strike.—On May 29 1909 a strike on the surface lines began (V. 88 p. 1438), and lasted for a week. For terms of agreement see V. 88, p. 1500 A new strike to obtain an increase in wages to 25 cents an hour and exclusive recognition for the Amalgamated Car Men's Ass'n, which began Feb. 19 1910 (V. 90, p. 560), was declared off on April 25 1910. See company's terms, V. 90, p. 1102.

Wage Schedules.—On Aug. 28 1911 a plan was presented to the employees looking to a lasting peace between company and men, 22% of gross passenger earnings to be set apart for wages and wage scale to be increased as rapidly as possible within that limit. See plan in V. 93, p. 590.

Adjustment of Relations with City.—On Feb. 18 1907 the board of directors accepted the plan submitted Jan. 1907 by the Retail Merchants Association of Philadelphia for a readjustment of the relations between the city and company. The plan confers upon the city the right to purchase at any time after June 30 1957 all leases, franchises and property of the company at the company's actually paid-in capital, $30,000,000. The city is to have the right to assign or sell this option. Furthermore, a sinking fund is to be established, to be taken out of the gross receipts of the company, which, calculated at 4 %, will amount to at least $30,000,000 at the expiration of 50 years, to enable the city to acquire the property at that time. Another feature in the arrangement is that, beginning with Jan. 1 1907, the city shares equally in the net profits after stockholders have received lawful interest on the capital invested by them. All franchises for further surface, elevated or underground railroads within the city are to be first offered the Phila. Rapid Transit Co. under terms of this contract. The city is also to have three members on the board of directors. The present rate of fare is not to be changed except with the consent of both parties. As part of the arrangement, the Rapid Transit Co. agreed to call the $12,000,000 then still due on its stock at the rate of $3,000,000 every six months, the money to be used to give increased and improved service. For further details of plan, see V. 84, p. 451, 1552. An ordinance embodying the above features was passed by the Phila. City Council on June 20 1907 (V. 84, p. 1488) and ratified by the company July 18 1907. On Feb. 27 1911 State Supreme Court affirmed the decision (V. 89, p. 847) of the Common Pleas Court sustaining the company's demurrer in a suit brought to test the validity of the foregoing ordinance. V. 92, p. 596. On July 29 1907 directors called for payment the final assessment of $15 a share on stock, payable in two installments—$7 50 Sept. 9 1907 and $7 50 Sept. 7 1908. V. 85, p. 284, 1402.

In June 1908 the City Councils approved the company's proposition to pledge its assets to secure a $5,000,000 loan. V. 86, p. 1530. Stockholders Sept. 16 1908 approved proposition. See V. 87, p. 740. In Oct. 1908 stockholders of Union Trac. Co. and the Phila. Trac. Co. approved the use of securities (see V. 87, p. 813, 1161), owned by them as security for the new loan, and the $5,000,000 coll. trust mtge. shown below was thereupon authorized. Provision has been made for exchange of new bonds for the coll. tr bonds due 1917 of Phila. Traction Co., bond for bond. V. 88, p. 376.

On June 20 1910 stockholders voted to further increase indebtedness not exceeding $5,000,000 (V. 90, p. 1102; authorized by City Councils May 5 1910, V. 90, p. 977, 1240), and as part of the plan to discontinue the insurance fund valued at over $1,750,000, and to pledge or sell the securities in said fund, applying the proceeds to general purposes of the company; also to sell the rolling stock of the company to the Union Trac. Co. for $1,500,000, taking lease of same for 10 years at rental of $150,000 a year and int., with right to re-purchase equipment at the end of 10 years for $1. This lease to be made basis of a $1,500,000 issue of car trusts by Union Trac. Co. V. 90, p. 1426, 1555, 1677; V. 91, p. 337.

On Feb. 28 1911 shareholders of both the Phila. Rap. Trans. Co. and the Union Trac. Co. approved a plan (V. 92, p. 463) in accordance with the views of Mr. E. T. Stotesbury, who consented on such conditions to enter the Phila. Rap. Trans. board, calling for the issue of $10,000,000 s. f. bonds running for life of city contract, guar. p. & i. by the Union Trac. Co. and secured by pledge of equity in Market St. Elev. Pass. Ry. (V. 91, p. 1629) over and above present $10,000,000 mtge. on said property. V. 92, p. 596 On Feb. 29 1912 directors of both the Phila. Rap. Trans. and Union Trac. Co. authorized the $10,000,000 s. f. mtge., the first $6,000,000 to be issued, $2,000,000 Mch. 1 1912, $2,000,000 Oct. 1 1912 and $2,000,000 Jan. 1 1913. V. 94, p 631. As part of the plan, every equity owned by Phila. Rapid Trans. Co. is surrendered to Union Trac. Co. See V. 91, p. 1161, 1386, 1574, 1630, 1711. The City Council assented to the arrangement in May 1911. V. 92, p. 1375, 1500.

See new method of bookkeeping in V. 92, p. 596; also various official statements in V. 92, p. 1033, 1500, 1566.

E. Newbold, Geo. H. McFadden and A. M. Gray, Sec. V. 92, p. 660, 726, 882, 1243, 1500.
